

**LCT**  
**European Masters Program in Language and Communication Technologies**

**Duration:** 24 months

**Course description:**

The European Masters Program in Language and Communication Technologies (LCT) is designed to meet the demands of industry and research in the rapidly growing area of Language and Communication Technologies. It offers education and training opportunities for the next generation of leaders in research and innovation. It provides students with profound knowledge and insight into the various disciplines that contribute to the methods of language and communication technologies and it strengthens their ability to work according to scientific methods. Moreover, the students also acquire practice-oriented knowledge by choosing appropriate combinations of modules in language technology, computational linguistics and computer science. Duration: 2 years (120 ECTS credits). Language(s) of instruction: English (default). Study program:

The course consists of Core Modules and Specialised Modules in Language Technology and Computer Science, complemented by a Project, and a Masters thesis, for a total of 120 ECTS credits. Students study at two universities and receive a joint masters degree. The awarded degree is officially recognised through the degrees of the partner institutions in the issuing countries.
