	<p><b>Brief description:</b></p> <p>CANEM2 will enable and organize mobility of 135 CA nationals to EU universities and 5 European Staff to CA universities. Each of the 15 CA partner-universities will send to EU partner-universities undergraduate, masters, doctoral, post-doc students and staff members – academic/administrative. This mobility will have significant impact on the capacity of CA partner universities. The main instruments of the project will be that knowledge of students and teachers gained in European universities will be distributed at home universities to enhance the results of the project. The main field of study is Economics and Management, but at the same time, the project will accept of students from other fields of study, which are adjacent areas of learning. The reason that was chosen direction of economics and management is that in Central Asia are already four consortiums of technical and engineering areas. And we would like to provide an opportunity for students of social and managerial sciences to study in European universities.</p>
