	<p>Brief description:</p> <p>EULALinks SENSE is a GREEN project, which has a specialized academic guidance in areas of interest as natural, social, environmental and development science. EULALinks SENSE is a second version of EULALinks, an EMA2 project that started in October of 2012 and which is currently active. It is coordinated by the Humboldt Universität zu Berlin (HU). The first version of EULALinks had its origins in the SERIDAR project of the ALFA III programme of EuropeAid, which was formed in 2010 with five Latin American partners and two European partners, also being coordinated by the HU in Berlin. The SERIDAR project aimed to strengthen research in higher education on issues of Development, Territory and Rurality, through participatory and multidisciplinary methodologies involving the actors of the territory. The first purpose of SERIDAR project was to empower the participant high educational institutions in their role and impact on the rural development of Latin American countries.</p>
