	Tel/fax	+39 071 2202293
	E-mail	s.mangialardo@univpm.it
	<p>Brief description:</p> <p>The activities will be implemented by a partnership of Universities mainly belonging to the Uniadrion network (Virtual network of universities of the Adriatic-Ionian basin) and located in 9 countries of the Adriatic-Ionian area. They consist in the organization and implementation of a structured mobility of different target groups of students, academic and administrative staff, with a focus on students at high educational level and academic staff, for the purposes of high-quality cultural exchange. The partners are distributed all over the Western Balkans and cover a great variety of fields of study, although the project, being strictly connected with the reinforcement of the Uniadrion network, will focus on the main fields of interest already shared by the network's members: protection, cataloguing and promotion of cultural heritage; environment and sustainable development; cultural tourism and development; communication, ports and economic relations. The aim of the project in the short to medium term is to strengthen and consolidate academic cooperation among Higher Education Institutions of the Adriatic-Ionian area. The network of relations to be created thanks to mobility flows will represent the academic and cultural infrastructure of the future Adriatic-Ionian Macro-region, whose strategy is being developed by the European Commission upon mandate of the European Council and whose establishment will become effective by the end of 2014. The long-term target of the project is to establish a platform for sharing educational paths in order to implement joint programmes for the awarding of joint titles among the universities in the countries of the area. In addition to that, the mobility of researchers will enable the exchange of expertise and the identification of research areas of common interest, which the scientific resources of the area should be invested in, with the purpose of creating an adequate scientific background for the Adriatic-Ionian Macro-region.</p>	

Mobility flow:

Type of Mobility	Outgoing		Third country	Incoming			Total	Distribution per mobility type
	Europeans			Third country nationals
