Politechnika Warszawska- Poland
Indian Institute of Science Bangalore- India
Anna University Chennai- India
IIT MADRAS - India
University of Delhi- India
IIT Guwahati- India
IIT Kanpur- India
IIT Rajasthan- India

Project objectives:

The general objective of the Window India Learning Link Power (WILLPower) programme is to strengthen the existing network of co-operation among Indian and European universities by expanding their experience in student and staff exchanges and disseminating good practice regarding academic harmonisation, organisation and management of mobility (Top Industrial Managers for Europe Network (TIME) in accordance with the Bologna Process / Credit transfer).

The main objective of the project is to contribute to the improvement of innovation, education and research capabilities, and collaboration between India and Europe in various subjects. WILLPower should improve access to high-level education to a large number of young female and male professionals to experience the benefits of studying abroad and of being introduced to other methods. The programme should create a pool of well-qualified, open-minded and internationally experienced women and men able to meet societal challenges of the XXIst century. This project aims at implementing sustainable structures and relationships.

Brief description:

The project will contribute to increase human capital in the following subject areas: Architecture, Urban and Regional Planning, Business Studies and Management Sciences, Engineering, Technology, Natural Sciences, Education and Social Sciences.
