NOTICE

All personal data (such as names, addresses, CVs, etc.) mentioned in your application form will be processed in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data. Your replies to the questions in this form are necessary in order to assess your grant application and they will be processed solely for that purpose by the department responsible for the Community grant programme concerned.

Please read and complete this form with all due care, in accordance with the guidelines for applicants.

Please note that the evaluation of your application will only be performed if your concept note is provisionally selected. Your application will then undergo the evaluation. The eligibility conformity check will be performed in parallel with the content assessment, on the basis of the supporting documents requested by the European Commission and the Declaration by the applicant signed and sent together with the application.

Administrative instructions

- The application must be typewritten or word-processed using a computer, ("arial" font character size 11 pt minimum).
- Even if this call is officially published in English, the application form can be filled in either English or French.
- The original of the application must bear the original signature of the legal representative of the applicant institution and the original stamp of this institution (section IV of the application).
- The application must be accompanied by copies of letters from the appropriate authorities of each institution participating in the project, confirming their agreement with the application as submitted (section II of the application).
- Applications must be sent by post **and** e-mail by the closing date. The paper copy is authentic. Applications sent by e-mail only or sent by fax will not be accepted. Annexes which are not available electronically need not be sent by e-mail.
- The signed original of the application and 2 copies thereof must be sent in the same envelope **by 31 January 2007 (as per postmark)** to:

7 Project Description

The Project description must answer the 4 sections below in a maximum of 15 pages (the font size **cannot** be smaller than Arial 10). Any Description not meeting those basic requirements will be rejected without appraisal.

7.1 Financial and operational capacity and expertise

- 7.1.1 Describe the applicant experience in the management of international cooperation projects.
- 7.1.2 Justify its expertise and that of the partners in implementing the eligible activities (organisation of student and academic staff mobility, experience with higher education institutions in Third-countries, implementation of recognition mechanisms such as ECTS, etc.)
- 7.1.3 For each of the participating institutions, describe the resources and facilities that will be made available for the project (human and financial resources, equipment, facilities, etc.)
- 7.1.4 In accordance with Article 115 of the Financial Regulation, the selection criteria must be such as to make it possible to assess, inter alia, the applicant's financial capacity to complete the proposed action or work programme.

In this regulatory context, all applicants, except if they are public bodies, are asked to complete the table below, setting out clearly the following financial information, based on the last annual accounts which have been closed and which must be submitted with the grant application:

<i>Applicant's legal name</i>	
<i>Legal status of the applicant</i> ¹	
<i>Currency</i>	
<i>Date on which the last annual accounts were closed</i> ²	
<i>Equity capital</i> ³	
<i>Incorporation expenses</i>	
<i>Net profit/loss for the fiscal year after tax</i>	
<i>Balance sheet total</i> ⁴	
<i>Duration of the project in years</i> ⁵	
<i>Operating result</i> ⁶	
<i>Depreciation allowance recorded as operating expenses</i>	
<i>Cost of the project for the applicant</i> ⁷	
<i>Total expenses according to the profit and loss account</i> ⁸	

1. Example of legal status: public limited company, non-profit association, private limited company, cooperative, non-governmental organisation, etc.
2. The date on which the last annual accounts were closed cannot precede by more than 18 months the date on which the call for proposals was closed. The financial data requested in the table must be based on these accounts.
3. Equity = authorised capital + share premiums + increases in value resulting from revaluation + reserves + profit carried forward - loss carried forward + capital subsidies. If equity capital is positive, it should be recorded with a "+" sign in the table; otherwise, it should be reported with a "-" sign.
4. Balance sheet total = total assets = [sic] total liabilities.
5. For projects with a duration of less than one year, the minimum "duration of the project in years" which can be used is 1.
6. Operating result = difference between operating profits (except financial profits and exceptional profits) and operating expenses (except financial expenses and exceptional expenses). If this difference is positive, the operating profit should be recorded with a "+" sign in the table; if it is negative, the operating loss should be recorded with a "-" sign in the table.
7. Cost of the project for the applicant = cost of project - Community contribution - contribution from third parties, if this contribution is definite (formal and irreversible commitment) and if the third party has sufficient financial capacity to guarantee the co-financing promised.
8. Total expenses according to the profit and loss account = total of operating expenses, financial expenses, exceptional expenses and taxation expenses.

7.2 Relevance of the proposal

- 7.2.1 *Describe the relevance of the proposal in contributing the objectives defined in the call*
- 7.2.2 *Justify how the expected results will contribute to these objectives.*
- 7.2.3 *Describe which are for you the main needs and constraints of the target groups and countries concerned and justify how the proposal will constitute an answer to these needs and constraints.*
- 7.2.4 *Describe the expertise of the partnership in the call's priority thematic fields and specify how well they are covered in the proposal. Describe the specific actions, if any, which will be implemented by the partnership to tackle equal opportunities and social equity issues.*
- 7.2.5 *Describe the partnership and the associated organisations and justify their selection and the added value they will individually bring to the project.*
- 7.2.6 *In the context of the geographical lot concerned by the proposal and the specific needs of the target groups involved, justify the geographical coverage and spread of the partnership (both European and third-country institutions and associates).*

7.3 Methodology

- 7.3.1 *Provide an overview of the methodological approach that will be followed by the partnership in the implementation of the project. Describe the project management, internal communication, monitoring, quality evaluation, etc. mechanisms that will be put in place among the partners to guarantee an efficient implementation of the mobility activities;*
- 7.3.2 *Describe the joint application procedure, selection process and criteria for student and academic staff selection. Justify how these mechanisms will guarantee the impartiality of the selection and ensure the most suitable candidates are actually selected based on objective merit, equal opportunities and prioritising of socio-economically disadvantaged groups.*
- 7.3.3 *Describe the role of each individual partner in the preparation, organisation and implementation of the individual mobility activities. Explain how the mobile individuals will be distributed among the different partners and justify the reasons beyond this distribution.*
- 7.3.4 *Indicate the number of mobility flows expected with each of the third-countries concerned, for each type of mobility and each target group. Explain how students from target groups 2 and 3 will be reached and selected. If applicable, describe the strategy envisaged to increase and diversify these mobility flows in subsequent academic years.*
- 7.3.5 *Describe the examination arrangements and in particular how these will be coordinated and communicated within the partnership in order to ensure equity. Describe if you intend to use the ECTS grading scale or a comparable system for translation of national marks. Describe if the mobility at master or doctoral level will lead to a joint or double diploma in the framework of the partnership. Indicate if a Diploma Supplement will be issued at the end of the studies identifying the students' participation in the mobility scheme.*
- 7.3.6 *Describe the services provided by the partnership to welcome and host students and scholars (international office, housing facilities, coaching and counselling, welfare services, language courses, activities aiming at social integration, assistance for obtaining visa, services for students with a family or special needs, other support measures, etc.).*
- 7.3.7 *Describe the issues addressed in the partnership agreement in place (or in preparation) between the members.*
- 7.3.8 *Describe the mechanisms in place within the partnership to reach out potentially interested third country and European students. Describe the activities foreseen to ensure the visibility and raise awareness on the project among the target groups concerned.*
- 7.3.9 *Justify how the partnership will ensure the appropriate match between the thematic expertise of the individual partner institutions and the profile of the students and academic staff that will visit them.*

7.4 Sustainability

- 7.4.1 *Describe the expected impact of the project on the individuals and their socio-economical environment. Explain how the partnership will ensure that the project does not contribute to a brain-drain in the third-countries concerned.*
- 7.4.2 *Describe the expected multiplier effects of the project on the partnership and how it may contribute to improve, reinforce and further develop the cooperation activities among the partners.*

II. PARTNERSHIP STATEMENT

Important: This declaration must be provided by each partner.

A partnership is a relationship of substance between two or more organisations involving shared responsibilities in undertaking the action funded by the European Commission. To ensure that the action runs smoothly, the European Commission requires all partners to acknowledge this by agreeing to the principles of good partnership practice set out below.

1. All partners must have read the application form and understood what their role in the action will be before the application is submitted to the European Commission.
2. All partners must have read the standard grant agreement and understood what their respective obligations under the agreement will be if the grant is awarded. They authorise the lead applicant to sign the agreement with the European Commission and represent them in all dealings with the European Commission in the context of the action's implementation.
3. The applicant must consult with his partners regularly and keep them fully informed of the progress of the action.
4. All partners must receive copies of the reports - narrative and financial - made to the European Commission.
5. Proposals for substantial changes to the action (e.g. activities, partners, etc.) should be agreed by the partners before being submitted to the European Commission. Where no such agreement can be reached, the applicant must indicate this when submitting changes for approval to the European Commission.
6. Where the Beneficiary does not have his headquarters in the country where the action is implemented, the partners must agree before the end of the action, on an equitable distribution of equipment, vehicles and supplies for the action purchased with the EU grant among local partners or the final beneficiaries of the action.

Given the objectives of the action, I agree

- ✓ to the recognition of the periods of study undertaken by the students from my university in the partner universities.
- ✓ to apply a fee waiver policy for incoming students from the partner institutions who follow study in my institution if duration of study period is inferior to 10 months.
- ✓ To the recognition for the purposes of studying of the previous studies carried out by third country nationals under target groups II and III

I declare by my honour the following:

- ✓ I grant power of attorney to the main beneficiary (Applicant/Co-coordinating institution) to sign the present application in my name and for my account.
- ✓ I do not fall in any of the categories (a) to (f) listed in section 2.1.1(2) of the Guidelines for Applicants.
- ✓ I will not favour any actions that could lead to brain drain from Third countries and will do everything in their power so that mobility activities contribute to building capacity in Third Countries, to increasing the relations and improving the understanding between the different peoples involved.

I have read and approved the contents of the proposal submitted to the European Commission. I undertake to comply with the principles of good partnership practice.
