Key Activity 4
Dissemination and exploitation of results

Roberta MANONI, EACEA
Dissemination and exploitation of results
What and Why?

Promotion and awareness-raising
- Publicising the existence of programmes and the availability of funding

Dissemination
- Providing information in a planned way to relevant audiences

Exploitation
- Multiplication: end-users adopting or applying results
- Mainstreaming: using results for policy development
Applications received 2007-2011

- Multilateral Projects 2011
- Multilateral Projects 2010
- Multilateral Projects 2009 and Studies and Reference Material
- Multilateral Projects 2008
- Multilateral Projects 2007
Programme 2010-2020

Strategic framework for European cooperation in education and training ("EU 2020") Council conclusions (May 2009)

General Objective

The primary goal of European cooperation should be to support the further development of education and training systems in the Member States which are aimed at ensuring:

1) the personal, social and professional fulfilment of all citizens;
2) sustainable economic prosperity and employability, whilst promoting democratic values, social cohesion, active citizenship, and intercultural dialogue.
LLP strategic objectives

European cooperation in education and training should be established in the context of a **strategic framework** spanning education and training systems as a whole in a lifelong learning perspective with:

**Four strategic objectives:**

- Making lifelong learning and mobility a reality;
- Improving the quality and efficiency of education and training;
- Promoting equity, social cohesion and active citizenship;
- Enhancing creativity and innovation, including entrepreneurship, at all levels of education and training.
Specific objectives

To achieve the above strategic objectives, various principles should be observed, including:

... b) European cooperation in education and training should be pertinent and concrete. It should produce **clear and visible outcomes** which should be presented, reviewed and **disseminated** on a regular basis and in a structured manner, thereby establishing a basis for continuous evaluation and development.

... d) Dissemination of results: to **enhance visibility** and impact at national and European level, the outcomes of cooperation will be widely **disseminated among all relevant stakeholders** and discussed at the level of Directors-General and Ministers.
