

Eligibility of organisations from non-EU countries

Article 8 of the Regulation No 1295/2013 establishing the **Creative Europe Programme** stipulates that countries other than EU Member States may participate in the Programme. This participation is subject to the conditions referred to in the same article.

The table below gives an indication of non-EU countries that are likely to fulfil these conditions in time to be eligible for the 2015 round of Calls for Proposals. Applications from cultural and creative organisations from the countries that may participate in the programme as of 2014 will be taken into consideration in the Award Decision process. For projects from countries that might participate as of 2015, the final selection of projects is dependent on the signing and notification of an Agreement with the European Commission before the Award Decisions for the projects.

Please refer to the guidelines for the different calls for further details and timetables.

| Country | Organisations eligible to apply in the Culture Sub-programme? | Organisations eligible to apply in the MEDIA Sub-programme? |
|---------|---|---|
|---------|---|---|

Countries that participate in the Creative Europe Programme as of 2014
