Description of the project’s progress: some tips (1)

✓ Identify questions that are relevant to your project
✓ Build upon the information provided in previous reports
✓ Don’t hesitate to report any shortcomings
✓ Don’t hesitate to give us background information
✓ Be as detailed as possible, demonstrating progress with indicators
Description of the project’s progress: some tips (2)

What do we mean by indicators?

“…Quantitative or qualitative statements which can be used to describe situations that exist and to measure changes or trends over a period of time… to measure the degree of fulfilment of stated objectives, outcomes, activities and inputs…

(from the evaluation guidelines, Danida, 1999)
Description of the project’s progress: some tips (3)

Some examples of “Tempus” indicators:

✓ “Staff trained”
=> 5 of the 10 staff members of the Department have acquired new skills which have been evaluated and certified by the Project Board in January 2006

✓ “New course developed”
=> 1 new 25 teaching hours course as part of the regular undergraduate curriculum by Spring 2004 taught to 3rd year students.
Description of the project’s progress: some tips (3b)

Some examples of “Tempus” indicators:

✓ “Centre established”
=> Centre formally established through Statute dated 1 September 2004 as a Unit of the Faculty, with 2 staff members, equipment, 3 classrooms and additional Faculty financial resources until 2010.

✓ “Student mobility achieved”
=> 3 undergraduate students in their final year acquire in July 2005 20 ECTS following a 3-month study period in the EU during Spring 2005.

### Title of the outcome table

ENVIRONMENTAL MANAGEMENT COURSE DEVELOPMENT

### Indicators of achievement and/or performance as indicated in the project proposal

The retraining courses in environmental management can only be successful if they are well structured (on a modular base), if they contain the latest updated EU regulations and standards and if they attract a lot of participants from administration and industry. Therefore a lot of attention will be paid to determining the exact structure, didactics and contents of the environmental management course.

### Proposed changes

Until now no changes are planned.

---

Activity N°: 00  
**Activity Title:** Environmental management course developing  
**Start Date:** October 06  
**End Date:** August 07  
**Place:** Bihac, Banja Luka, BiH and Novi Sad  
**Description of the activity:** In this activity the BA and CS staff members will actively develop all new modular courses. The courses should meet EU standards and regulations. The equivalent of 18 ECTS credits environmental management courses are planned. The courses to be developed will be structured around the following areas:  
1. Environmental Legislation: how can EU legislation be practically implemented in CS/BA? (6 ECTS credits)  
2. Environmental Management Systems and Certification (6 ECTS credits)  
3. Environmental Management: emerging techniques and practices (6 ECTS credits)  
**Indicators of progress:** Up to date environmental management course materials in BA and CS
