

Opportunities for universities and university students/staff under European Union programmes

As part of its commitment to the countries of the Southern Mediterranean, the European Union is increasing its support for universities and students from the region.

Because student and staff exchanges and partnerships are essential for mutual understanding, exchange of ideas and knowledge, democratisation processes, professional development and employability, the European Commission has decided to significantly increase the funding allocated to the two programmes Erasmus Mundus and Tempus, allowing for the creation of more partnerships and increasing the number of scholarships for students and staff coming from North Africa and the Middle East.

Opportunities for universities: Erasmus Mundus

Erasmus Mundus Masters Courses, Erasmus Mundus Joint Doctorates (Action 1)

Erasmus Mundus Masters Courses and Joint Doctorates are operated by **consortia** of higher education institutions (HEIs) from the EU and elsewhere in the world. They provide **high quality integrated courses** and **joint or multiple diplomas** following study or research at two or more HEIs. They offer EU-funded **scholarships or fellowships** to students and scholars. New Masters and Doctorates are selected each year - they offer EU-funded scholarships for students and scholars. http://eacea.ec.europa.eu/erasmus_mundus/results_compendia/selected_projects_en.php

Erasmus Mundus Partnerships (Action 2)

Erasmus Mundus **Partnerships** bring together universities from Europe on the one hand, and from a particular region or country on the other. This includes countries from the Southern Mediterranean. You may wish to review some of the websites of the existing partnerships here:

http://eacea.ec.europa.eu/erasmus_mundus/results_compendia/selected_projects_action_2_en.php

How to take part

Universities from the Southern Mediterranean may be a partner in one of the consortia/partnerships of universities selected in the framework under both Action 1 and Action 2. Projects are selected under annual Calls for Proposals: the current call for proposals was launched in December 2011, with a deadline of 30 April 2012. Additional funding allows for more partnerships from Southern Mediterranean countries. Erasmus Mundus Calls for Proposals are published on this page: http://eacea.ec.europa.eu/erasmus_mundus/funding/higher_education_institutions_en.php
A partner search facility is available at: <http://erasmusmundus.teamwork.fr/>

You can read more about the programme in the Erasmus Mundus Programme Guide:

Opportunities for universities: Tempus

The Tempus programme promotes partnerships between higher education institutions in the EU and the Partner Countries surrounding the EU: the Southern Mediterranean, Western Balkans, Eastern Europe, Russia and Central Asia. Tempus Joint Projects aim to modernise higher education courses and institutions and focus on the themes of curriculum development (at any level), enhancing university governance and creating links between higher education and society. Structural Measures projects aim to modernise national higher education policies and systems.

How to take part

A Call for Project Proposals is launched every year. Each project lasts two or three years and can be awarded between 500,000 and 1,500,000 Euro. This year's Call was published on 4 November 2011 and the deadline for applications is 23 February 2012. Funding is available for staff costs, travel, accommodation and equipment in the Partner Country institutions. Additional funding allows for more projects from the Southern Mediterranean: it is expected to support in 2012 approximately 35 new projects in the region.

Tempus Calls for Proposals are published on this page:
