INTRODUCTION

The key aim of setting out past projects in this compendium is to inspire others to create new, future projects. By giving concrete, detailed information about previous projects it is possible to demonstrate clearly what kind of activities can be carried out in the framework of the Euro-Med YOUTH programme, although the list is by no means exhaustive. The compendium offers an opportunity to discover ideas and stimulate the imagination.

The projects presented in this Compendium were selected for funding under the Euro-Med YOUTH programme at European level selection rounds for budget years 2000-2002.

Third-Country Cooperation with the Mediterranean countries, initially launched in 1992, is still one of the priorities of the YOUTH programme aiming to further develop and increase the number of these activities to comprise more diverse partnerships and to improve the quality of projects. The Mediterranean partners participate in the YOUTH programme via the Euro-Med YOUTH programme.1

The objective of youth activities with countries outside the European Union is to promote a better understanding of the young people’s respective environments and to foster a sense of solidarity among them. These activities enable those involved to try out different forms of democratic participation in society. By contributing to the development of the youth sector in the partner countries, the Programme facilitates the acquisition of knowledge and techniques required for the active participation of young people into civil society.

This Compendium presents the projects selected with the Mediterranean partner countries and covers various types of activities under Actions 1, 2 and 5 of the Programme.

So what are Actions 1, 2 and 5?

**Action 1 - Youth Exchanges** bring together groups of young people aged between 15 and 25 from different backgrounds and from several countries, providing them with an opportunity to meet, and tackle issues under various themes. This leads to a better understanding of the diversity of culture, and to an appreciation of the value of that diversity. Group exchanges aim to combat prejudices and stereotypes, to promote active citizenship and to raise positive awareness of other cultures among the young participants and in local host communities.

**Action 2 - European Voluntary Service** enables a young person to become a volunteer in another country for a specific period, usually 6-12 months. This provides an informal intercultural learning experience for the young people involved, encouraging their integration into society and active participation, whilst also increasing their employability and giving them an opportunity to show solidarity with other people. Voluntary service projects support the development of local communities, foster the creation of new partnerships and promote the exchange of experience and good practice. These projects are a result of partnerships between sending organisations, host organisations and the volunteers themselves. They do not involve job-substitution and they are non-profit-making and unpaid.

**Action 5 - Support Measures** are designed to promote the aims of the Euro-Med YOUTH programme in a number of ways. They assist the development of the other Actions of the Programme by increasing the quantity and quality of projects submitted. Alternatively they may contribute to achieving the overall objectives of the Programme and to strengthening European youth policy or they may contribute to the development of the youth sector in the partner countries.

Action 5 activities are carried out in the fields of co-operation and partnerships, training measures and youth information. Cooperation and partnership activities help to establish permanent working relations between partners, or to promote innovation that favours new multilateral youth exchanges and voluntary service. Training activities provide youth workers or youth leaders and other support persons with the necessary skills to organise and manage transnational youth activities based on intercultural learning, or provide them with knowledge and competencies to work with young people with special needs. Youth information projects encourage greater cooperation and the development of new activities or materials to complement activities carried out in the field of non-formal education.

Find out more about all these projects in the following pages, where they are listed by Action.

This document is designed not only to give information on the accepted projects, but to be used as partner search resource as well.

YOUTH EXCHANGES

Action 1
Belgium

Beneficiary: SORIF

The applicant organisation "SORIF" (BE) consists of a group of experienced youth leaders who have been meeting on a regular basis since two years and have succeeded in organising a platform aimed at reaching young people originating from emigrants, having difficulties in finding their way to existing youth activities, which could facilitate their integration and help increasing their self-confidence to cope with discrimination and isolation. The project brings together 40 young people (10BE, 10 MA, 10FR, 10DZ) and 10 youth leaders who will meet during 16 days in Al-Hoceima (MA). By taking part in cultural and artistic activities (such as music, photography, sculpture, painting, writing poems, etc.), the participants will be confronted with the way young people coming from a different cultural background organise these kind of activities, using different kinds of material, etc. This way the exchange will foster intercultural learning among participants coming from two different regions - Europe and the Mediterranean region.

Beneficiary: GUSTAV STRESEMANN INSTITUT E.V.

The applicant, the Gustav Stresemann Institut, is a non-governmental organisation specialised in youth and adult education & training. Having implemented a series of projects which focussed on Middle & Eastern Europe they now propose a project which for the first time will bring together participants from the European Union (DE (7), FI (7) and FR (7) and the Mediterranean (MA (7) and TR (7)). The participants will meet in Bonn (Germany) where they will discuss during an eight day exchange seven issues which are all related to living in the big city. The participants will be asked to identify what they do not like about the cities they live in. Then they will discuss how their ‘ideal’ city would be different. Finally, they will formulate concrete proposals what needs/should be changed in the nearer future. Having done all this work in group and workshop format they will at the end of the exchange come together in an assembly session to formulate their ideas in the form of a resolution. The resolution will summarise all discussions and present a number of proposals, which were selected through voting. This resolution will be officially handed over to the mayor of Bonn and be presented to local politicians of each participating country once the participants have returned home.

The applicant organisation, Freies Kinder- und Stadtteilzentrum e. V., is a grassroot organisation working with young people of the impoverished districts of Hamburg. Focussing on information provision, free-time-pedagogic, media work, intercultural education and international encounter/co-operation the organisation tries to motivate young people to develop themselves in long-lasting youth projects and special training. The proposed project is the follow-up activity (the second of a series of four projects in total) of the exchange of last year, which took place in Morocco. The same groups will meet again DE (9), ES (9), TN (9) & MA (9), but this time in Istanbul, Turkey. Having discussed and explored the influences religion and in particular Islam has had on the shaping of a Moslem state and it's society they will now further these pursuits in a country where Islam is the major religion but where the state & Islam are separated. During the exchange discussions will be combined with a well-chosen programme of visits to historical sights and social and political institutions. Important will also be the continued work with the concrete results of the previous exchange, which will be collected as features, short essays and personal reports in a leaflet. Preparing the publication and the new encounter the young people will use a specially to be created Internet forum, which they want to develop as an important communication tool to bring the partners closer together.

The applicant is the Verband der Arabischen Frauen in Deutschland an organisation which represents the interests of Arab women in Germany. An important part of their activities are to help women in need to deal with or overcome difficult situations, which arise from the fact that they live in a 'foreign' society. Here the activities range from self-help to vocational training courses. Another important part of their activity concerns work in the youth field and here in particular exchange activities. For this project they will bring together young women with their youth leaders from AT (6), DE (6), DZ (6), MA (6), NL (6) and TN (6) in Neuss, Germany for an intercultural exchange. At the centre of the exchange will be the exploration of the role (young) women have in their respective societies and families. Through discussions in the form of workshops and a number of visits to relevant institutions and people of the public sector the participants will compare their different living situations. They will be animated to exchange their views, ideas and hopes openly and thus get a better insight into the way of life of the other. Comparing how each one of them positions herself in life will encourage them to find common approaches for solutions to individual problems which in turn will raise their sense of solidarity.

As part of a new intercultural approach, Kiz Hamburg has linked-up with Turkish, Spanish and Moroccan partners in order to assist very underprivileged youths (9 from each country), and mainly from immigrant backgrounds, to meet in Morocco in order to help these young people discuss and gain insight into the various cultural, social and especially religious perspectives required for intercultural exchanges, although these have been challenged by the recent incidents portrayed in the media regarding links between German-Turkish and Spanish-Moroccan immigration problems.

The Counsel dels Joves de Gandia (CJG) is an association that brings together various youth associations working in the town of Gandia. It is their legal representative at institutional level in terms of youth issues. Following the involvement of one of its members during a training session in Ankara last year, and based upon the Spanish experience where the geography, history and culture are closely linked to the Mediterranean, but where racist attitudes to people from the Mediterranean have increased recently, the promoters propose setting up an exchange project on the theme "The Mediterranean: Sea or Wall?" This will take place in Gandia (E) and will bring together 27 young people (3 Spain, 3 Greece, 3 Portugal, 3 France, 3 Jordan, 3 Malta, 3 Turkey, 3 Palestine, 3 Algeria). The project promoters would like to provide participants with an intercultural learning experience to help them ascertain the things that bring them together, thus realising the need to fight against racism and xenophobia to make the Mediterranean into a bridge uniting the young people rather than a wall that separates them. The exchange will use methods such as dialogue and shared responsibility in decision taking. The exchange plans to hold: workshops and debates on racism and xenophobia and other themes that affect young people; a conference on immigration; visits to local associations and institutions and cultural visits. The project will lead to the creation of a document called "Young people and racism and xenophobia" that will be sent to the media. The project will also encourage the creation of a new network of partners.

RAI is a youth association that aims to promote the education of young people in the values of solidarity, participation and tolerance and to initiate or strengthen the process of youth initiatives through intercultural and international work, particularly through youth exchanges and encounters. It is part of several networks, such as MARE, EYE, YES-EUROMED and UNITED. Using the conflict between Palestine and Israel and the effect this has on young people and the cooperation work carried out by youth associations, as well as the need to set up projects that bring the north and south sides of the Mediterranean together as a starting point, the promoters propose an exchange on the theme "The areas around the Mediterranean". This activity follows on from the MED exchange in 99 and will take place in Conversano (Italy) alongside a Mediterranean festival. It will bring together 32 young people (12 Spain, 8 Italy, 8 Palestine, 8 Israel) who have personal experience of the conflict. The project aims to continue developing discussions on the cultural affinities that unite the participants, as well as developing various methods for conflict resolution, namely those that exist between Palestine and Israel. The exchange plans to hold workshops, conferences, meetings with local associations, create a video and prepare a radio programme that will be played on a local radio station.

It is part of several networks, such as MARE, EYE, YES-EUROMED and UNITED. As part of the work carried out jointly by the Asociazone per la Pace and RAI in favour of social dialogue and relations between the Palestinian and Israeli peoples, the promoters propose a new exchange targeted at young women. This will take place in Palestine and Israel and will include 40 young women (10 Spain, 10 Italy, 10 Israel, 10 Palestine). The aim is to raise awareness of the real nature of the conflict between Israel and Palestine and make the women aware of the role they can play in resolving conflicts. The exchange will help forge links between young people from different cultures, to make them aware of their cultural diversity and favour personal involvement in building a peaceful world. The exchange will use approach methods such as "non violent training" to help the young people understand the issue of conflict resolution. The exchange plans for workshops and debates, cultural visits and meetings with women's groups in the two countries involved in the exchange.

The international platform for citizenship is based in Strasbourg, France and its main aim is to bring together and encourage dialogue between associations in the north and south. It is also active in fields such as the development of intercultural awareness, training, and the right to free speech for minority groups and local democracy. The proposed project brings together 5 partners (1FR, 1IL, 1TO, 1JO, 1DE) and will involve 20 participants (10 boys and 10 girls: 4FR, 4DE, 4TO, 4JO, 4IL) for 14 days in Zemmer, Israel and Nablouse and Tulkarem in Palestine. The team supervising the exchange is made up of 4 professional youth workers (1FR, 1DE, 1IL, 1JO). All of the partners are local NGOs working in the field of youth and training. The project aims to carry out an intercultural learning exercise dealing with equal opportunities and the fight against xenophobic attitudes. The cultural, political and religious differences between Palestine and Israel have motivated the partners to organise this exchange. To prepare this, several discussions, encounters, workshops and some visits will be organised in Israel and Palestine. The participants will also have to lead activities and debates with local associations or young people, with the aim of discussing issues of cultural identity. The various partners met during a seminar on north-south inequalities held in France in July 1999.

The participants all come from disadvantaged or immigrant backgrounds. As well as oral exchanges, artistic creation in various forms will be used to help the participants express themselves. All of their creations will be presented to the public at the end of the encounter. A first meeting of the partners already occurred and it was following this that they decided to meet again in November 1999, in order to set up the foundations for a new collaboration and a new project.

The Trisunic association (Compagnie Subito Presto) is a French association that aims to create cultural shows mixing dance, drama and music. Moreover, it also organises encounters and activities with young people from other associations or schools in order to raise their awareness in the arts and help overcome their problems by providing them with artistic possibilities. This project in cooperation with 5 partners (FR-BE-IT-TO-LB) will take place in Avignon, France and will last 20 days. It will bring together 49 participants (10IT, 10BE, 15FR, 8TO, 6LB) and 9 youth workers (1BE, 6FR, 1IT, 1TO). The point they all have in common, apart from all studying an arts discipline, is the fact that they have difficulty accessing culture in general, due to their disadvantaged backgrounds for the EU participants and due to the social, economic and political difficulties in their home countries for the Palestinian and Lebanese participants. The project involves the young people participating in various artistic workshops, with the aim of producing street theatre on the theme of travel, migration, nomads and tribal culture. Outdoor speeches are also planned throughout the project's duration, as well as debates and discussions.

The ASTIA is an Association for Solidarity with Immigrant Workers from Apt (France) that fights against racism in order to help each person live with dignity in France. It is involved in the fight against school failure and provides help to immigrants, aims to improve housing conditions and help with administrative matters. Following previous exchanges the promoters would like to carry out a new exchange of young people from partner associations. This will take place in Apt (France) for 8 days and involve the same 8 partners (2FR, 1IT, 1 DE, 2DZ, 1 TN, 1 MA) and 53 young people (45 + 8 youth workers) (25 EU: 11 FR, 7 IT, 7 DE; 28 MEDA: 7 MA, 14 DZ, 7 TN). Most of the participants come from disadvantaged socio-economic groups. The project intends encouraging young people to take part in the construction of a fair and democratic Euro-Mediterranean area whilst strengthening and increasing their awareness of being part of a shared experience. To do so, many debates, round tables, creative and thematic workshops will be used to let the participants express themselves. The previous encounters helped the partners identify the need for a sustainable partnership based on exchanges in order to help strengthen links of solidarity between young people from Europe and North Africa.

During this research work the young people will get to know each other better and understand and respect each other. The encounter also aims to help young people acquaint themselves with the pleasures of discovery and observation in order to encourage creativity and favour sustainable friendships. Lastly, it aims to organise individual and group expression sessions so that each participant can express his or her ideas and opinions and discuss these with others in an open, transparent and tolerant way. The result of this exchange will be the production of a CD-ROM.

This project is submitted by FWA, a Maltese NGO taking care of heritage matters and preservation of urban conservation areas. The applicant and partner groups from three other Mediterranean regions that used to be colonies, plan to bring together young people active in the field of heritage protection in order to exchange ideas and develop strategies for concrete action in colonial heritage protection. The applicant proposes a six day meeting with 16 participants (GR 4, IT 4, MT 4, TO 4) in Malta. In plenary sessions and work groups, participants will receive information on heritage issues in the participating countries, followed by field visits and group exercises at several Maltese conservation projects. It is hoped that participants will continue to act as multipliers spreading conclusions from this meeting within their home environment.

The applicant is a non-partisan association of Arab youth in Israel, which aims to strengthen the Arab youth's understanding of democracy and gender equality, and to foster pluralism and tolerance, and to enable a debate about Palestinian history, culture and grievances. They organise a multilateral exchange entitled "The cultural national minorities towards integration or segregation?" in Haifa, Israel involving 60 participants from IL(10), TO(6), ES(6), NL(6), PT(6), FR(6). The aim of the exchange is to address the situation of minorities, and relate this to the contemporary society where movement of people from one country to another either due to political or economic situation creates new ethnic groups. Which choice will the new minority make - to keep the traditions and culture, to integrate to the majority - and how will the majority population of the society receive the new-comers - these are examples of the few questions that the exchange will deal with. In addition, during the exchange participants will learn about the Israeli- Palestinian conflict and the host society. The working methods will include lectures, workshops, cultural excursions, field visits, family stays and meetings with local youth.

**Beneficiary: THE COMMITTEE FOR EDUCATIONAL GUIDANCE FOR ARAB STUDENTS**

The applicant organisation is a Haifa-based association that promotes higher education for the Arab minority in Israel. They will organise together with their three partner groups a multilateral exchange entitled “Minorities and Democracy in Europe, Palestine and Israel” that will bring 45 young participants (10 IT, 10 SE, 10 TO, 15 IL) in Haifa, Israel to address the issue on minority questions. This exchange is a third in a row exploring the same theme, but with different composition of the European partners. The exchange has three main objectives: to facilitate the cultural exchange and mutual understanding between different youth groups, to examine various minority-majority relations in the Middle East and European contexts, to explore the situation of the Palestinian Arabs in Israel and relate that to a more global discussion of minority rights in democratic societies. The so-called unrecognised Arab villages in Israel will be used as case studies. The young participants will not only visit villages, but they will through voluntary work and educational activities gain a deeper understanding of the subject. The exchange will have a direct impact on the local communities by contributing to the local economy through the services that are required for the exchange, and by participating to the voluntary work at the local community. A more indirect impact will be achieved by raising awareness of the situation and by bringing the international community to the door-steps of the local youngsters.

The applicant is a non-partisan association of Arab youth in Israel, which aims to strengthen the Arab youth's understanding of democracy and gender equality, and to foster pluralism and tolerance, and to enable a debate about Palestinian history, culture and grievances. They organise a multilateral exchange entitled "Contradictions and Life Styles: a study tour of the Palestinian Arab Minority in Israel", which will involve 38 participants - 8 French, 10 German, 10 Palestinian and 10 Israeli young people - and one youth leader from each partner country. The exchange programme hopes to change the stereotype images that Europeans have about Arab, Muslim and Palestinian young people as stone throwing thugs or helpless victims by giving them another view to the society were they are living in. The exchange will address the situation of the Palestinian youth in Israel, and set this in a wider context related on the situation of minorities in nation states. Through the programme the participants will learn about the roots of the Israeli-Palestinian conflict and about the status of Palestinian citizens in Israel - this both through lectures and discussions but most importantly via participation to the everyday life in unrecognised villages in the area. The participants will also visit Palestinian institutions in East Jerusalem and have meetings with representatives of different associations and local personalities in Jaffa-Tel Aviv, Ramle and Haifa. The planned hike in Ein Jedi and the Dead Sea as well as meeting with Bedouin youths will further allow the participants to get acquainted with the host country of the exchange.

Youth Development and Co-operation (YDC) is an international network of youth and youth serving organisations that focus on the social position of young people and the role of these organisations in international co-operation. It has identified a wide range of issues, which are fundamental to the lives of young people such as education, human rights, democracy and poverty. The aim of the exchange is to bring 27 young people (3FR, 3ES, 3PT, 3GR, 3NL, 3MA, 3EG, 3TR and 3LB) together in Marseilles, France, where they will exchange their ideas, opinions and experience. They will also explore theoretical and practical models of how youth organisations can contribute to strengthen civil society in the North and South of the Mediterranean. They will also explore strategies and methods for promoting and facilitating young people's participation in civil society. One objective is to promote and foster permanent co-operation and partnership between youth organisations in the Mediterranean in the field of civil society issues. The exchange will focus on three specific ideas, which are: the situation of women, concrete measures to strengthen overall democracy and the promotion of social and political participation of young people in society.
