INTRODUCTION

The key aim of setting out past projects in this compendium is to inspire others to create new, future projects. By giving concrete, detailed information about previous projects it is possible to demonstrate clearly what kind of activities can be carried out in the framework of the YOUTH programme, although the list is by no means exhaustive. The compendium offers an opportunity to discover ideas and stimulate the imagination.

The projects presented in this Compendium were selected for funding under the YOUTH programme within the so-called third country co-operation with the countries of South East Europe (SEE) for budget year 2003.

Third Country Co-operation with the SEE countries, initially launched in 1995, was one of the priorities of the YOUTH programme in 2003 aiming to further develop and increase the number of these activities to comprise more diverse partnerships and to improve the quality of projects.

The objective of youth activities with countries outside the European Union is to promote a better understanding of the young people’s respective environments and to foster a sense of solidarity among them. These activities enable those involved to try out different forms of democratic participation in society. By contributing to the development of the youth sector in the partner countries, the YOUTH programme facilitates the acquisition of knowledge and techniques required for the active participation of young people into civil society.

This Compendium presents the projects selected with the SEE countries and covers various types of activities under Actions 1, 2 and 5 of the Programme.

So what are Actions 1, 2 and 5?

**Action 1 - Youth Exchanges** bring together groups of young people aged between 15 and 25 from different backgrounds and from several countries, providing them with an opportunity to meet, and tackle issues under various themes. This leads to a better understanding of the diversity of culture, and to an appreciation of the value of that diversity. Group exchanges aim to combat prejudices and stereotypes, to promote active citizenship and to raise positive awareness of other cultures among the young participants and in local host communities.

**Action 2 - European Voluntary Service** enables a young person to become a volunteer in another country for a specific period, usually 6-12 months. This provides an informal intercultural learning experience for the young people involved, encouraging their integration into society and active participation, whilst also increasing their employability and giving them an opportunity to show solidarity with other people. Voluntary service projects support the development of local communities, foster the creation of new partnerships and promote the exchange of experience and good practice. These projects are a result of partnerships between sending organisations, host organisations and the volunteers themselves. They do not involve job-substitution and they are non-profit-making and unpaid.

**Action 5 - Support Measures** are designed to promote the aims of the YOUTH programme in a number of ways. They assist the development of the other Actions of the YOUTH programme by increasing the quantity and quality of projects submitted. Alternatively they may contribute to achieving the overall objectives of the Programme and to strengthening European youth policy or they may contribute to the development of the youth sector in the partner countries.

Action 5 activities are carried out in the fields of co-operation and partnerships, training measures and youth information. Cooperation and partnership activities help to establish permanent working relations between partners, or to promote innovation that favours new multilateral youth exchanges and voluntary service. Training activities provide youth workers or youth leaders and other support persons with the necessary skills to organise and manage transnational youth activities based on intercultural learning, or provide them with knowledge and competencies to work with young people with special needs. Youth information projects encourage greater cooperation and the development of new activities or materials to complement activities carried out in the field of non-formal education.

Find out more about all these projects in the following pages, where they are listed by Action.

This document is designed not only to give information on the accepted projects, but to be used as partner search resource as well.

The project references indicating the country first are selected at national level, and further information can be obtained from the respective National Agency (for contact details, please refer to http://europa.eu.int/comm/youth/program/natage_en.html), for the project references starting with six digits more information can be obtained from the European Commission or from the Technical Assistance Office (for contact details, please refer to the last page of this document).

YOUTH PROGRAMME

Action 1
**Beneficiary:**  Présence et action culturelles asbl - Pac Evere

**Project Title:**  Co-existence and co-understanding II

The purpose is to enable the youth to continue and deepen the debate on the phenomena of racism and xenophobia that started on the previous exchange in Portugal and to allow them to fully express their ideas and preferences by providing the youth with the knowledge and resources to create, completely by themselves, future projects that will take place in the other partner countries.

Project Title: Body Talk

In this theme we would like to think and work about one’s body in different kind of ways: body language, the relation to my body, the characterisation or stigmatisation of it, the different esthetic idealism, my body and my disability,... Different questions will rise: can my body be a cherish or does it have to be a burden, what do I express, how can I take up some challenges,....?

We can explore this theme in different kinds of workshops: art, sports, discussion, simulation games,...

Beneficiary: NETZWERK FÜR EINE HUMANE ERDE E.V.

Project title: Netzwerk für eine humane Erde

The applicant for this third country youth exchange is called "Netzwerk für eine humane Erde" (network for a humane earth) from Leese, Germany. It is an association which runs social activities in the area of youth work, child education and humanitarian peace work. It researches and promotes methods of ecological cultivation and natural food production. The planned exchange will take place in Kostajnica, Croatia. It would bring together 30 participants and 4 group leaders from DE, PT, BH, HR. The theme for the exchange would be to contribute to the dialogue between Croatia and Bosnia and their neighbour Serbia. For this a permanent camping ground is to be established that would be located on the border between Bosnia and Croatia on a peace path. In addition the experience should lead to better mutual understanding and removal of prejudice.

Project title:  **Europe in Motion - Let's Move Together!**

Europe in Motion - Let's Move Together! is the title of a youth exchange submitted by the German organisation Bosphorus Gesellschaft e.V. The applicant organisation, who opened its programs for SEE participants in 1998, promotes and practices cultural exchanges and aims at building bridges between cultures by organizing multilateral projects and expertise meetings. The exchange will involve 28 participants (4TR, 4GR, 4BG, 4DE, 4AL, 4YU and 4BH) who will come together in Istanbul, Ankara and Izmir in Turkey in order to raise youth awareness on the migration reality and on socio-economic aspects of migration in general with special emphasis on youth mobility, "brain drain" and xenophobia. The project also wants to offer an opportunity to communicate and to come to a mutual understanding through a direct exchange of mind among young people.

Project Title: Make it happen - personal leadership connected with gender and age

This youth exchange programme between Germany, the Netherlands, Ireland, Bosnia, Croatia and Slovenia, titled "Make it happen - personal leadership connected with gender and age" is organised by a team of young people working voluntarily in the European social sector. They first met in a youth exchange one year earlier which resulted in the idea to overtake the responsibility for the actual project to discuss and develop their ideas and visions of a multicultural world. The main method will be the Open Space Technology, because it provides the opportunity for participants to explore their topics of interest and to follow their passions. During that process participants will participate in and create intercultural learning laboratories.

Project Title:  Nathan der Weise nach dem 11. September

All partners have felt how intolerance and incomprehension against other cultures and religions increased after the 11th of September. Aim of the project is that young people from different European countries, who are interested in the field of theater, music and video get to know each other and, through the project, find way of expression and capacity to act against intolerance and racism. Social competences should be trained and developed. The participants should acquire more self-confidence also for the interaction with foreigners.

**Project Title:** Move together

In 2002 an exchange with the same partners from twin towns (except Russia) took place in Erlangen (Germany). During the evaluation of this exchange it was decided which twin town would host the next common youth exchange. This year the exchange will take place again in Germany (Jena). Next year another twin town is supposed to host the exchange. The participants will learn about Europe and the project will have an impact at local level. Inclusion and European Dimension is a special topic of the exchange. Disadvantaged youngsters will be involved. Exchange and learning from and together with other cultures. Learning about Europe. Raise awareness among the participants what happened during the time of National Socialism.

Project Title: Über Mauern hinweg (Away over walls)

Pax Christi in the diocese of Aix-la-Chapelle is part of the International Catholic Peace Movement and therefore actively engaged in the field of peace, justice and active peace work. They organise e.g. voluntary and civil peace services in Poland, Croatia and Germany.

To a great extent, the social structures in and around Benkovac (HR) are not existing and there are only few contacts between the different social and ethnic groups (Croates, Bosnian Croates, Serbians). This multilateral project with two Western European countries is a good possibility to create new perspectives for leisure time activities and the development of the own environment for the young people of the Balkans Croatia and Bosnia-Hercegovina. The symbolic subject of the workshop "Away over walls" is meant to help to have a look over the own "Tellerrand".

In relation to the subject of the project, the groups will build together a climbing wall in order to overcome the wall of everyday racism through common activities. Therefore, it is important to build this climbing wall together and to learn together how to overcome it and to practise this together. In addition, the climbing wall is meant to stay there as a sign and to be there as a means for sports for the young people in the village.

Through their peace projects, the German but also the Danish partners have contacts with Bosnia and Croatia since 1993. This will be their first common youth exchange.

Project Title: Reunion in Bosnia and Herzegovina and in Montenegro, for the Serbian, Croatian, Bosniac,...

Return visit to Bosnia, Herzegovina and Montenegro. The same partners and participants took part in the first step of the project in Germany in the summer of 2003. Subjects are environment and media and communications. The group will build garbage bins, distribute them over the city area in public places and streets and communicate their purpose to the public. There will also be events for youth leisure and holiday activities like excursions to important historical and nature landmarks. After the part in Bosnia and Herzegovina the group will move to Montenegro. There the group will engage in beach cleaning activities, make something creative with the summer relics for an exhibition and thus communicate an environmental problem to the public.

Project Title: From printed news to web - Was ist Realität

The applicant is a local NGO from Styria/Graz. The project entitled "From printed news to web" will take place in Croatia and will involve 60 young people, 10 each from AT, IT, SI, FR, HR and BH. The teenagers are more largely left alone within our multimedia society - the aim of the activity is to encourage the young people to recognize new conditions within the field of multimedia and to deal with it reflexively. Through multicultural interaction within the fields of sports, culture and music a common understanding and tolerance as well as the fight against racism shall be promoted. The program is composed of games, workshops, discussions, outdoor activities.

Projects with SEE countries

POLAND

Beneficiary: SEMPER AVANTI (STOWARZYSZENIE)

Project title: HeritAge for the Youth

"HeritAge for the Youth" is the title of a project presented by the Polish applicant organisation "Semper Avanti", a regional non profit organisation, whose main activities are focused on supporting young people with less opportunities in order to encourage their active participation in society. By giving these young people the opportunity to take part in international youth projects, it aims at fostering their intercultural and international experience, meant to be a positive factor for their personal and professional development. The organisation also encourages young people to get involved in cultural activities and to increase their interest in the historical and political reality of Europe. This youth exchange will involve 59 participants from 9 countries: Programme countries (31): IT 9, PL 8, PT 8, UK 8 and SEE countries (27) AL 9, BH 9, YU 9. The groups bring their own artistic programme but in the week spent together they will make a common performance - an intercultural parade, while learning more about ancient Slavic tradition of St Johns night.

Project Title: Dionisio is comming back to Macedonia

Dionisio coming back to Macedonia is a pretext and an opportunity for linking together young people (from South-East, Central and Western Europe) with redeeming the myth inside of a controversed and desired Europe. The event will involve young people in preparing and organising a public preservation of an ancient myth explored by different cultures and presented through art as a contemporary alternative of expression.

Project Title: Diversidade - Aceitação

This exchange, Diversity-Acceptance, is a project oriented through a variety of theoretical and practical activities distributed in two different environments: the rural interior and the urban littoral. The local distribution aims to break some ideas of solitude in these areas, as there are many emigrant communities installed in these areas with a great level of acceptance. On the other hand, the cities are a fixation point for the result of open frontiers and European enlargement. So, the idea of this project is to take the young people to these two different pools and verify where in fact diversity is accepted. The theoretical activities (workshops, working groups, round tables, forum, debate) begin a reflection opened with questions that came across from the enlargement of the U.E. and the opening of new frontiers related to the acceptance of cultural diversity in these countries. Some of the questions will be:
- What do we know about the others?
- Do we really know ourselves in order to expect respect from the others?
- What do we expect, related to those which are arriving and concerning the others who are already here
- Why are the other countries interested in being part of the U.E., what is the image they have?
- Who wins and who loses?

Because in our project we are involving Member States, countries candidates for accession and third countries, we can have a reflection concerning all these points of view. The practical activities (visits, games, sports, workshops, entertainment, street activities) will be the consolidation of the themes involved, but also the divulgation of our culture and of our country as well as a good relation between young people from different cultures, beliefs, politics and traditions. Above all, this practical part is to achieve a state of friendship between the participants, links that can be stronger than resistance and diversity.

This project is a project of giving conscience to the young people for a reality that they will have to face. They will have to learn to be and to do, but mainly, and more importantly, they will have to know how to be with others.

Project Title: Four points of European Culture

In this youth exchange we will get together youngsters from Finland, Portugal, Serbia (Fr. Yugoslavia), Macedonia and Slovakia. We are interested in these kind of projects since participation in a contact seminar in Slovenia in 2002. The project unites young people from the Programme countries and South-Eastern Europe. The idea is to combine elements of these different cultures and create output that is multicultural in content and that is implemented by multicultural team. This gives a strong message that the young people can really use their own potential for cultural co-operation in modern Europe.

In modern Europe it is very important to understand other cultures, but also to realize our own cultural "roots". By exploring other people's realities it is possible to understand also better your own cultural existence. This is why we want to form a group of young people in every participating country to start getting deeper in their own cultural elements which would in their opinion help young people from other countries to understand better each-others realities and the cultural process from background to nowadays life. All these young people are interested in many different kinds of art.

We decided to use art as a tool in this process of learning and development of cultural awareness. In the area where the exchange is taking place there are prejudices especially against people from Russia and East - and South-Eastern Europe. People from the North-Eastern region of Finland do not know much about Finland. By doing this exchange well we could effect in a very positive way in attitudes of all participating young people and also in aspects of local people. We will spend 13 days of activity in Youth Centre Oivanki, Kuusamo and its surroundings. Among many activities in the nature the participants take part in several workshops, guided by youth workers. In these workshops they explore the cultural elements that these youngsters have brought with them. We start to compare some elements, then we combine characteristics of them so that we can create a new European picture through a process of creating a multicultural performance. The young people can choose the workshops by interest; in one participants start creating music, in other some drama parts, etc and then we put all this together. The idea is not just to do a performance but learn more about these things we go through in this process. In this exchange we are going to help young people to recognize the differences and similarities of cultures and life in other parts of Europe; to explore the development of cultural growth of European people from past till today: "Four points of European Culture; all aware, all unite".

Project Title: Building Bridges

Culture is one of the most important and primary factors that defines people as social beings. People make judgements based not on facts but on emotions and associations they conjure up. So we think that bringing people together due to experiencing and learning about different cultures is the most successful way to combat negative prejudices and stereotypes. Meeting new cultures and learning about them is the theme of the exchange. Young people, by being brought into contact with other cultures, can learn a lot from each other - they can discover and explore similarities and differences between their cultures and realize that differences are not something we should be afraid of, but as something what can enrich our life. Young people from Spain, Germany, Italy, Bosnia and Herzegovina, Montenegro, Kosovo and Slovenia are going to become aware of this since they are going to spend their time together for ten days. Cultural workshops, group working, lectures and discussions, practical work, excursions and leisure activities will link them together.

**Project title:** Passport to success

The applicant organisation "Centre for Health Care Development" is a non-profit programme unit operating through the National Health Service in the UK. It runs a number of projects such as the promotion of better health conditions at the workplace and the implementation of leisure activities for disadvantaged young people from the North West of England. The proposed exchange brings 40 young participants and 8 group leaders from UK (12), ES (12), Serbia (12) and Kosovo (12) together in Belgrade to participate in the "Passport to success" project. The project has developed from the "Passport for youth" exchange to Serbia in August 2002. Young people involved in the 2002 exchange expressed the desire to organise a similar experience for young people aged 15-18 from their local communities. The aim of the exchange is to widen the horizons of the young people involved, to increase their awareness of other cultures and to give them the opportunity to understand issues affecting young people across Europe. The exchange will be led by 2 young people from each group involved in the 2002 exchange and activities will concentrate on understanding other cultures, working towards conflict resolution and the creation of a Europe-wide network of young people.

The project is presented by Youth Action for Peace, the European secretariat of an international peace movement that was founded in 1923 in order to promote peace, solidarity and a society of justice. They work in collaboration with a number of national branches throughout Europe and other youth organisations in the Mediterranean region or Latin America. They organise seminars, youth exchanges, training courses focusing on peace and development education. The youth exchange with the title 'A historical challenge: understanding and peace in the centre of Europe' will take place in Pécs (HU) with the involvement of 30 participants from EU, Pre-accession and countries of South Eastern Europe (4YU, 4BH, 4HR, 3MK, 2IT, 2AT, 2CZ, 3RO, 2SI, 2HU and 2BG). The main theme of the project will be to explore the cultural and historical differences and common points between Central and Eastern Europe and through this analysis to break down the geographical barriers and reach co-operation and understanding. Consequently, the participants will be encouraged to re-consider their preconceptions or stereotypes about the respective countries through discussions and also by working together on preparing an exhibition.

YOUTH PROGRAMME

Action 2
Beneficiary: AFS Interculturele Programma's vzw

Project Title: AFS - Youngsters and opportunities

The aim of the project is to implement and promote Intercultural Learning and Global Education in Croatia. Therefore the volunteer -together with Croatian volunteers – will prepare project and workshops and an information campaign with and for Youth from all over Europe, regarding Intercultural Learning and Global Education as well as other themes like tolerance, discrimination, racism, ethnic minorities, xenophobia, history and culture of South Eastern Europe. To have an easy integration, there will a language course and other trainings, depending on the need of the volunteer. As we are often organising trainings for our own volunteers, the EVS volunteer can easily follow those trainings too.

Beneficiary: Landesvereinigung Kulturelle Jugendbildung Sachsen-Anhalt e. V.

Project Title: Exchange Sachsen-Anhalt

The volunteer is supposed to work for and with Exchange Sachsen-Anhalt, a trans-organisational working group for international youth work in the federal land of Sachsen-Anhalt. The task of this unique regional co-operation is to support international youth-work in four main areas: 1) information and counselling, 2) language courses for multipliers, 3) training courses and 4) an image campaign. A special focus of Exchange Sachsen-Anhalt is to include young migrants and young people from rural districts into international youth work.

The help of an EVS volunteer from south-eastern Europe (Macedonia) is supposed to make this project and its team more international and intercultural, as international work needs an international team. Intercultural learning should so be made possible for both sides, the volunteer as well as the already existing team. The volunteer will co-operate with the other team members in planning and realising youth exchanges, multilateral training courses on international youth work and lobby work. According to her wishes she will herself be trained to become a trainer in youth work and so achieve abilities she will be able to use as well during the project as back home in her organisation in Macedonia. Furthermore about 20% of her time the volunteer will spend on her own project agreed on between the partners, a research on financial resources for youth exchanges with south-eastern Europe. Additional tasks are public presentations of the work of Exchange Sachsen-Anhalt, attending meetings of the working group and some office work concerning the above mentioned projects (about 10%).

Project Title: Visual communication and education for a youth network in Mostar

Solène worked on her project since one year. She discovered the EVS program and wanted to find a sending organization to realize her project in Mostar. She contacted us with a lot of motivation to be a volunteer in the Mladi-Most organization in Bosnia. In front of her determination and her energy we accepted to follow her in her adventure. For us, it is an opportunity to send a volunteer to a third country for the first time. And in this part of Europe we want to understand, through her experience, what is the situation after the war and how could we develop a positive intercultural communication (we work on this subject in our organization). After her EVS, Solène could talk about her experience in Bosnia to young people in Grenoble.

Her project in the Mladi-Most organization in Bosnia: She intends to work with young people of the cinema and video project and of the photo project of Mladi Most association in the city of Mostar.

She's is going to set up workshops where participants will be taught various means of graphic design and visual art. The contents of the workshop activities will include instruction on the use of software programs like Photoshop, Illustrator or QuarkXpress. By offering different seminars the participants will deepen their abilities in the field of multimedia, web design and computer animation.

By organising and having the described activities, Solène will facilitate individuals to express their needs, thoughts and ideas by using creative and communicative methods. The participants will develop the technical skills of self-management in visual communication relating to cultural activities and promotion such as layout of flyers, posters and newspapers for young people of Mostar. Besides having these workshop, young people will be empowered to use there own capacities, which is an important step, not only to sustain the project, but also to improve civil society in Mostar and Bosnia and Herzegovina.

**Project Title:** Beurk:youth animation in an European perspective

The present Vicenza's Municipality project will be realised since a long time is involved in projects for minors and youth in agreement with the local administration. The activities will be co-ordinated by the host organisation and carried out, following the program, in the different places for the accomplishment of the objectives. The prevention's project is addressed to the territory of the District n°3 and offers aggregation spaces where children and young people could find attention and communication with the adult, opportunities of relations with same age people and personal growth towards creative and cultural activities. The projects suggests the educational continuity with suggestions suitable for every age band, from the primary to the high schools, co-operates with an intense system work with the territorial offices and accomplishes a continuous dialogue with teachers and parents. The centre operations are divided, corresponding to the afternoon or the evening time band, in activities for children or for adolescents. Children activities aim to develop creativity, fantasy and team work to facilitate the collaboration and the relationships with the others. The volunteer could participate in many workshops and activities that take place in the centre, as: Painting and clay workshops, aiming to stimulate children's creativity and fantasy: the volunteer could help children in not judging the work of the others and in making them co-operate. Dramatisation, theatre, puppets workshops, animated by the educators, in which the volunteer could help children in revising, with their fantasy and freedom, a story previously heard, or helping them in the building of the story characters reading workshop, in which we try to stimulate the child towards the pleasure and the love for reading Videoforum organisation, in which the volunteer could try to discover the most suitable movies and cartoons for the children and then stimulate to talk about them. Symbolic and group games where the volunteer could try to help the co-operation and the sociability. The volunteer will also take part into the team meetings for the weekly programming of the activities and their control, making him feel more responsible. The activities for the adolescents, instead, aim to the participation, to the making responsible and to the respect for the rules in a team work context. The volunteer should create the conditions for a positive dialogue with the adolescents, before taking part or organising with them any activity. Now, in the centre, there is a photographer's studio, an autonomous Internet workroom and the possibility to have dinner. These dinners are an occasion for meetings and are an educational instrument, as they're run by the guys. Starting from the participation and responsibility spaces, the volunteer should build together with the young people activities of their interest.

Projects with SEE countries

Beneficiary: AFSAI

Project Title: LEARNING BY DOING IN A CLOSE COUNTRY

In the framework of the ICYE-EASTLINKS Large Scale Project (89248-5.1.XL-CE-12-2000-R2), which aims at fostering long-term voluntary service exchanges between EU and SEE countries, (particularly those in the former Republic of Yugoslavia), this project perfectly fits with its goals. As the previous multilateral project (Project N°106960-2.2-CE-12-2002-R3) this project gives young people the possibility to acquire experiences and knowledge about voluntary service and civil society in general by living and working in EU and SEE countries. It is expected that it contribute to building one European identity at grassroots level. This project also aims to intense cooperation between youth organizations in Italy and Croatia.

**Project title:** St John's Volunteers

"St John's Volunteers" is the title of a project presented by the Polish applicant organisation "Sempr Avanti", a regional non-profit organisation, whose main activities are focused on supporting young people with less opportunities in order to encourage their active participation in society. By giving these young people the opportunity to take part in international youth projects, it aims to foster their intercultural and international experience, meant to be a positive factor for their personal and professional development. The organisation also encourages young people to get involved in cultural activities and to increase their interest in the historical and political reality of Europe. This project will involve 4 volunteers with less opportunities (2UK/2YU) taking part in a short term EVS project (1 month). The volunteers will help in organising a youth exchange "HeritAge for the Youth" with South East Europe countries. In a first phase (10 days) they will prepare the exchange by setting up the programme and providing the required material; in a second phase they will actively take part in the exchange and assist the Polish youth workers with the implementation of it.

Project Title: Community Center Hrasnica

PICSR's main objective is to provide a program for all community members, especially young people, who will ensure self-development in educational, cultural and sport aspect. By establishing cooperation with volunteers from different countries it is possible to: develop mutual understanding and provide intercultural learning, promote and enhance European integration through linguistic exchange, support the development of local community and integrate the local community into a wider European perspective.

One volunteer is going to work by art/creative workshops (intercultural exchange workshops) and the second one by pedagogical workshops. Workshops should actively involve young participants through games, creative work, performances, etc. During the work with youth and children, volunteers will have strong support from PICSR staff. Volunteers will have work partners that already work on similar activities that enable experience exchange.

Project Title: Foundation for creative development

The FKR mission is to gather and support children, youth and parents in their committed endeavours to build a peaceful BiH through participating in and improving educational, cultural and social structures. Promoting volunteerism is one of the goals by which we are fulfilling our mission. The involvement in the work of these international volunteers will help even more in providing the atmosphere of tolerance and understanding the cultural, ethnic, confessional and social differences.

The activities are during a week and in the same time the trainers and the volunteers will work on the preparations of the next activity. One of the volunteers will be able to work with children that are on age between 6 and 11 helping the trainers on the computer, English and social workshops.

At the end of the project there is always a show where the participants show what they have learned and done during activities.

Project Title: Multicultural Europortrait

The project is called Multicultural Europortrait as it connects five different cultures: Slovakia (the host country) Spain, Macedonia, the Netherlands and Albania (the volunteers' countries of origin). The four volunteers will spend a year in Slovakia organising workshops and free time activities for youngsters. We strongly believe that this multicultural europortrait will be to the best benefit of the personal and professional development of the 4 volunteers as well as to the local community in Cadca. The main idea of activities in this project is sharing common European values, raising European awareness and helping the individuals and the local community to become more open and tolerant towards people from other countries.

**Beneficiary:** INTERNATIONAL CULTURAL YOUTH EXCHANGE - INTERNATIONAL OFFICE

**Project title:** ICYE-Eastlinks Longterm Volunteering Project in EU and SEE Countries

Project "ICYE-Eastlinks Longterm Volunteering Project in EU and SEE Countries" is presented by the International Office of the I.C.Y.E Federation. The organisation comprises 35 National Committees and four regional bodies. It promotes short and long-term youth exchanges combined with voluntary service activities. ICYE enhances also youth mobility and intercultural learning through exchange programmes, study visits, training and issue seminars.

This long-term voluntary service project places 10 volunteers from AT, FI, DE, IS, ES, BH, HR, MK and YU in 9 different host organisations in DE, IS, ES, BH, HR, MK and YU. The voluntary service period is from 6 to 12 months. The project is an integral part of the ongoing ICYE-Eastlinks large-scale project aiming to increase the co-operation between ICYE and South Eastern European countries. This is the second part of a reciprocal project which sends and receives volunteers in both the EU/EEA and SEE. The project aims to contribute to the building of European identity through giving young people the possibility to acquire experiences and knowledge about voluntary service and civil society in general in these countries. The volunteers will be engaged in different local hosting projects. Most of the projects are linked to youth work and to providing different services for young people but there are also projects on environmental protection, disabled care and elderly care. Volunteers will bring an intercultural dimension to the work in host organisations.

Project title: Human Rights Messengers

Human rights messengers is a project submitted by SCI, a non profit association very experienced in the field of voluntary service at international level.
The project is part of the "peace and human rights campaign" aimed at raising awareness on human rights among the young people. In this framework, SCI proposes to send two volunteers for 6 months in two host organisations - Volunteer Centre Zagreb located in Zagreb and Balkan Sunflowers located in Kosovo. The volunteers will raise awareness of human rights and will share experience with other young people. In order to so do the volunteers will meet with different NGOs in Croatia and Kosovo, prepare workshops on the topic of human rights, visit work camps, organise different activities addressed to young people and contribute to the preparation of the publication "peace guide" on human rights. The volunteers will expand their knowledge on human rights and will develop communication and analytical skills. They will learn how to prepare, organise, lead, and evaluate workshops.

Project title:  EVS in South East Europe = Intercultural Perceptions in today's Europe

The applicant is Youth Action for Peace. The project involves 10 volunteers, 5 from South Eastern Europe (MK, 2YU, HR, BH) and 5 partners from members (PT, FR, IT) and involves volunteers working in local projects for 6 months. The project wants to create conditions to break the stereotypes of cultures, create communication between the regions, allow local communities to benefit from exchanges, and create a network based on co-operation and common activities. The basis of the exchange is already existing activities in different institutions and organisations.

**Beneficiary:** JUGENDBILDUNGSSTÄTTE KURT LÖWENSTEIN E.V

**Project title:** What makes the difference? Sexual minorities between self- and third-party-definition

The "Jugendbildungsstätte Kurt Löwenstein" is a registered NGO active in the field of non-formal education. The seminar house is located in Werftpfuhl, Brandenburg, DE. Project activities include civic education for young adults with less opportunities, international youth work in collaboration with SJD - Die Falken, seminars and training for youth work multipliers. This project is entitled "What makes the difference? Sexual minorities between self- and third-party-definition" and will gather 20 gay, bisexual, lesbian and transsexual young people and youth leaders active in youth associations (4 DE, 4 UK, 4 NL, 4 YU, 4 HR) for a seven day seminar in Werftpfuhl, DE. The topic of this meeting is homosexuality inside heterosexually dominated youth associations. Whereas gay & lesbian associations develop a wide range of international activities, there are rare opportunities for gay activists in other youth NGOs to meet and collaborate at European level. Discrimination may not be intended, but is caused by the fact that gay minorities are often a taboo inside many NGOs. Meeting young people, in the similar situation of being neglected inside their own structures, shall provide the opportunity to discuss and draw conclusions on the ongoing mainstream gender debates in NGOs and the Queer-Theory, which is not taken into account. The intention is also to elaborate ideas and strategies against common discrimination or violence against gays and lesbians in everyday situations. One of the keywords used is "heterosexist violence".

Project Title: CROSSROADS: "Curso de formación en resolución conflictos y proyectos juveniles Programa Juventud"

The main aim of the present project is to support international cooperation among youth of the South-East of Europe and other countries of the European Union. This way we will give the opportunity to those people with less opportunities to take part in activities and work-shops about solving conflicts and to learn about management of youth projects which will allow them to start creating and carrying out common projects at a European scope.

The first part of the course searches to make the process of learning about the principles and methods used to solve conflicts with youth easier. This is done by providing a theory framework (about origin and nature of conflicts, strategies, perception, roles in conflicts,...), as well as a practical one by developing and improving the needed abilities to understand and transform conflicts.

The second part of the course will deal with the European institutions which support youth activities at a European level and will include lectures about management and description of projects within the Youth programme and the European Youth Forum. It will also deal with acquiring experience in international team work which will allow the development of group projects by the end of the course.

Project title: Youth programme promotion in Serbia and Bosnia Herzegovina, IT and PT

The project entitled "Youth programme promotion in Serbia and Bosnia Herzegovina, IT and PT" is presented by ICS-Italian consortium solidarity, a humanitarian NGO involved in humanitarian and co-operation activities especially in the SEE region. The project is a youth information project aiming to promote the YOUTH programme mainly in the Balkans. This will foster better conditions for the involvement of young people from this region in the YOUTH programme. Young people from four countries will be involved in the realisation of a publication and a video documentary concerning best practices and recent experiences of youth exchanges and EVS activities and the creation of a database of local NGOs working with young people etc. The beneficiary is planning also to involve young people with less opportunities, giving them the possibility to contribute to the project by expressing their opinions and thoughts. Apart from the identified partners the project involves as much as possible other local organisations which have experience of international youth exchanges. All project results will be disseminated to all participating organisations, association groups and individuals. In order to reach a broader target group, different channels of communication will be used.

Project Title: Overcome Barriers

This international training course will bring together 20 youth leaders active with local NGOs from Albania, Austria, Montenegro and Slovakia, who have not had previous international experience yet. The aim of the training is to promote intercultural learning and to enable participants to competently use a variety of methods on intercultural learning (and intercultural language learning) within a multicultural setting. The training aims at providing the participants with input about the YOUTH programme and improving practical skills necessary for designing and running successful youth exchange projects. After the training, participants will act as multipliers in their regions, and youth exchange projects are expected as immediate follow-up of the training.

Beneficiary: Landesjugendreferat Kärnten

Project Title: Youth Workers in Motion

The international training course will bring together 20 youth leaders active with local NGOs from Albania, Austria, Montenegro and Slovakia, who already had previous international experience. The training aims will provide the participants with input about the YOUTH programme and improving practical skills necessary for designing and running successful youth exchange projects. Youth exchange projects are expected as immediate follow-up of the training. During the training the participants will get familiar with the Youth Programme and gain practical skills and abilities needed to organise a youth exchange (project management skills, project implementation, intercultural learning process, etc.) as well as improving their English language skills concerning youth workers vocabulary.

**Beneficiary:** CENTRUM WSPÓŁRACY MLODZIEZY

**Project title:** Europe of diversities. Inclusion into society of minority groups through cooperation

The project is a contact-making seminar presented by a Polish youth organisation, Centre for Youth Co-operation and Mobility. The organisation mainly focuses on citizen-based initiatives, and supports about 140 local youth organisations and groups in the North part of Poland, through various activities (training, information). The contact-making seminar will involve 50 participants from Northern and South-Eastern Europe (13 PL, 11 YU, 14 MK, 12 SE). The activity will take place in Gorcezyno (PL). It is presented as a follow-up to a SALTO Training Course on "co-operation between youth programme countries and countries in South Eastern Europe". The contact-making seminar focuses on gathering representatives of NGOs in order to exchange experiences and practices in working with different types of minority groups, and to further develop common projects under the YOUTH Programme (mainly Action 1) with a focus on minority issues.

Project Title: Swedish-Polish Study Visit to Balkans

LSU and CWM will conduct a study visit to meet representatives of youth NGOs in Macedonia and Kosovo. The overall aim is to establish deeper contacts with youth NGOs in the region. We want to learn more about the preconditions for youth NGOs in the Balkans and to identify differences and similarities in the way we work. We would also like to get a picture of how advocacy work and youth policies look like in the region. We would like to put a special focus on young politicians. An additional aim is to create space for development on common project ideas. We see the project as a very important step to increase the interest for the Balkans in Sweden and Poland and to involve more youth NGOs in exchanges activities with the region.

Four organizations from countries: Slovenia - Youth Aid Centre Association, Bosnia - Omladinski klub Vitez (Youth club Vitez), Serbia - Hajde da and England - Warwick Playground Adventure will participate in training course, which will take place in Maribor between 19th and 25th of July 2003.

Training course for youth workers is basis for future joint projects within YOUTH programme - Youth exchanges and EVS short term projects.

Our organizations work with youngsters and we try to include more young people with less opportunities into our local and future international projects. Therefore we found out that we need a training based on activities-workshops for knowing each other better, developing good team spirit, intercultural and human rights learning, exchanging different approaches in working with disadvantaged youngsters and learning new working methods for using them on local and further on international level, what will include preparation of new projects of youth exchanges.

The results of training will also be transmitted to young participants with less opportunities in our organizations for developing new youth exchange projects within YOUTH programme. In the sense of long term objectives we want to increase participation and credibility of young people in social, political life, support them to accept self responsibility and to create new opportunities for future life planning, help them to overcome negative stereotypes and prejudices and to raise awareness of human/youth rights.

| Project title: | Capacity building for workcamp organisers from SEE - antiracism video project |

The project entitled "Capacity building for work camp organisers from SEE - antiracism video project " is presented by SCI, an international movement promoting peace and understanding among people. Since 1992 SCI has been involved with sending volunteers and supporting humanitarian and peace organisations in the SEE region. The proposed project is a training course addressed to 16 young people coming from peace organisations in the Balkans (6YU, 2HR) and SCI members in EU countries (2AT, 2FR, 2NL, 2UK). It aims to enable the participants to set up/manage short term international voluntary projects (work camp). The training will be combined with a study part about intercultural conflicts and antiracism. Through this training the applicant aims to raise awareness about the intercultural conflicts in SEE and Western Europe, and the importance of the voluntary service concept. The training is set up in the framework of the capacity building of the NGOs in the SEE region. The training course is structured in two modules which will take place in Lille and Amsterdam. In between, the participants will participate in a two-week voluntary project in order to gain practical experience. The participants will research and produce a video as a tool for disseminating information afterwards.

Project title: Building a Human Rights Network in Europe

Building a human rights network is a training course submitted by SCI, a non profit association very experienced in the field of voluntary service at international level.
The training course will take place in Zagreb (HR) and will involve 25 young persons from all over Europe - from Programme countries, the SEE region and the CIS region. The training is part of the campaign of SCI "Peace and human rights" which aims to raise awareness among young people of human rights and peace issues. The training course will try to reach a common understanding of human rights issues among the participants from different regions of Europe and will provide the participants with practical skills in applying their knowledge on human rights in different voluntary work projects in Europe. The participants will develop skills on how to conduct and develop workshops and sessions on human rights issues. A tool kit for conducting sessions on HR will be realised.

Project title: Youth and European Solidarity - EU-SEE training course on refugees, human rights and reconciliation

ICYE Federation is a non-profit NGO organising short and long-term youth exchanges, voluntary service activities, study visits, trainings and seminars. Through these activities the organisation promotes youth mobility and intercultural learning. The federation comprises 35 national committees and four regional bodies. The project "Youth and European Solidarity - EU-SEE training course on refugees, human rights and reconciliation" gathers 25 participants from 3BH, 3HR, 2MK, 4YU, 2AT, 2FR, 2DE, 3LT, 1FI, 1IT and 2IS for 5 days in Berlin (DE). The training course is targeted at representatives of host organisations which will be participating in the implementation of a multilateral EVS project next year. The training course is built on the experience of ICYE gathered in their previous EVS projects on refugees. The aim of the training is to enable youth workers to acquire skills in organising and implementing EVS projects and to establish a basis for regional and international cooperation.
