INTRODUCTION

The key aim of setting out past projects in this compendium is to inspire others to create new, future projects. By giving concrete, detailed information about previous projects it is possible to demonstrate clearly what kind of activities can be carried out in the framework of the YOUTH programme, although the list is by no means exhaustive. The compendium offers an opportunity to discover ideas and stimulate the imagination.

The projects presented in this Compendium were selected for funding under the YOUTH programme at European level selection rounds within the so-called third country co-operation with the countries of South East Europe (SEE) for budget years 2000-2002.

Third Country Co-operation with the SEE countries, initially launched in 1995, is still one of the priorities of the YOUTH programme in 2002 aiming to further develop and increase the number of these activities to comprise more diverse partnerships and to improve the quality of projects.

The objective of youth activities with countries outside the European Union is to promote a better understanding of the young people’s respective environments and to foster a sense of solidarity among them. These activities enable those involved to try out different forms of democratic participation in society. By contributing to the development of the youth sector in the partner countries, the YOUTH programme facilitates the acquisition of knowledge and techniques required for the active participation of young people into civil society.

This Compendium presents the projects selected with the SEE countries and covers various types of activities under Actions 1, 2 and 5 of the Programme.

So what are Actions 1, 2 and 5?

Action 1 - Youth Exchanges bring together groups of young people aged between 15 and 25 from different backgrounds and from several countries, providing them with an opportunity to meet, and tackle issues under various themes. This leads to a better understanding of the diversity of culture, and to an appreciation of the value of that diversity. Group exchanges aim to combat prejudices and stereotypes, to promote active citizenship and to raise positive awareness of other cultures among the young participants and in local host communities.

Action 2 - European Voluntary Service enables a young person to become a volunteer in another country for a specific period, usually 6-12 months. This provides an informal intercultural learning experience for the young people involved, encouraging their integration into society and active participation, whilst also increasing their employability and giving them an opportunity to show solidarity with other people. Voluntary service projects support the development of local communities, foster the creation of new partnerships and promote the exchange of experience and good practice. These projects are a result of partnerships between sending organisations, host organisations and the volunteers themselves. They do not involve job-substitution and they are non-profit-making and unpaid.

Action 5 - Support Measures are designed to promote the aims of the YOUTH programme in a number of ways. They assist the development of the other Actions of the YOUTH programme by increasing the quantity and quality of projects submitted. Alternatively they may contribute to achieving the overall objectives of the Programme and to strengthening European youth policy or they may contribute to the development of the youth sector in the partner countries.

Action 5 activities are carried out in the fields of co-operation and partnerships, training measures and youth information. Cooperation and partnership activities help to establish permanent working relations between partners, or to promote innovation that favours new multilateral youth exchanges and voluntary service. Training activities provide youth workers or youth leaders and other support persons with the necessary skills to organise and manage transnational youth activities based on intercultural learning, or provide them with knowledge and competencies to work with young people with special needs. Youth information projects encourage greater cooperation and the development of new activities or materials to complement activities carried out in the field of non-formal education.

Find out more about all these projects in the following pages, where they are listed by Action.

This document is designed not only to give information on the accepted projects, but to be used as partner search resource as well.
The mixture of the regions of SEE and CIS was approved in few projects. The country abbreviations used for the CIS are: AM - Armenia; AZ – Azerbaijan; BY – Belarus; GE – Georgia; MD – Moldova; RU – Russia; UA – Ukraine.

Beneficiary: CAMPUS 15 - JUGEND WAGT DEN FRIEDEN E.V.

Campus 15 is a non-governmental youth organisation, which particularly tries to promote peaceful and permanent conflict resolution. The organisation is entirely run and maintained by volunteers. The organisation enables youth from problem areas with different ethnic, religious and national backgrounds to meet and experience tolerance and mutual understanding. Having organised several projects that were concerned with the conflict of the Balkans in Germany they now propose a reciprocal exchange project, which is to take place in Sarajevo. The proposed exchange will bring together young people from BH (44), NL (4) and DE (12) in Sarajevo, Banja Luka and Konjic in Bosnia Herzegovina. The main idea of the project is to involve the young people in a number of beneficial reconstruction projects so that they will concretely contribute to the reconstruction of the Bosnian society. The major project involves the designing and building of a garden near a special home for blind people. Next to 'hands on skills' the young people will work as a team to contribute to the clear benefit of very disadvantaged people.

Project ref.: 105733-1.2-DE-13-2002-R2
Beneficiary: BOSPORUS-GESELLSCHAFT E.V. GERMANY

The applicant is a German non-governmental organisation, which is continuing to develop its network of youth organisations bringing together European Union member states with those of the Balkan region. They organise youth exchanges between the different partners, which address a wide range of social, political and cultural issues. At the heart of these activities lies the conviction that a peaceful co-existence between the different cultures and ethnic groups of the Balkans can be established.

As their network has further developed with a new Serb partner joining, the project proposes to bring together young people from BG (4), BH (4), DE (4), GR (6), RO (4), TR (4) and YU (4) in Berlin (DE) and Strasbourg (FR). The participants will work out and formulate their own European Charta of Human Rights. This will be done in three phases: 1. The participants will present the discussion on human rights in respect to a Europe wide implementation in their countries. 2. An analysis of the different (national) approaches will be made and participants will examine how one can arrive at a common (European) understanding. 3. A common Charta will be worked out, formulated and written down. In the beginning discussions amongst the participants and with experts will be the main working method. Then this will shift to workshops in which different parts of the Charta will be worked out. An important feature of the exchange is that meetings, round tables discussions and even working sessions with different experts are held in order for the participants to get "first hand knowledge" and "test their ideas against the views of politicians". The participants will be asked to send in individual reports, personal articles and evaluations after they have returned home. The project co-ordinator will edit these and publish them in a special report, which is to present the outcomes of the exchange and which will be disseminated beyond the partnership.

The participants will present a series of topics to be discussed in workshops. Common opinions and statements will be formulated in resolutions, which will form the basis for meetings with experts and officials. Finally a common paper shall be produced, which will incorporate the outcomes of both the workshops and meetings.

Beneficiary: INTERKULTURELLER JUGENDSERVICE ROMANISCHES BÜRO

The Interkultureller Jugendservice - Romanisches Büro beim Förderband e. V. is a grassroots youth organisation situated in Kreuzberg Berlin (DE). The organise activities in the field of political education offer artistic courses and workshops and are in contact with other youth organisations through international exchange projects. They work particularly with children of migrants who have difficulty to be confronted with different cultural values: those of their parents' country of origin and those of the country they now live in.

The proposed project is a continuation of an exchange cycle through which they want to establish long term contacts with youth organisations in southeastern Europe, which is envisaged to result into a network. As the first exchange took place within the EU (AT) it is now planned to meet in the Balkans, namely in Oradea (RO). Having concentrated on music making in their first exchange the young people, coming from HR (10), YU (10), RO (10), AT (10) and DE (10), want to extend their activities and will now include workshops on Internet use, breakdance, painting, sculpture and folkdance. The different workshops will be thematically linked together. The participants will themselves choose the linking theme at the beginning of the exchange. The exchange will culminate in a public performance in which all workshops will present their results and a common production as the 'final act' is also envisaged.

The participants will engage in an exchange of ideas on which role culture can and should play in the development of a peaceful Europe. The exchange will consist of two major parts. First participants will discuss and compare the different fairy-tale traditions of their countries and the images and values expressed through them. Then they will produce their own tale in which they will express their ideals for a common Europe. The second part of the exchange will consist of workshops and meetings with experts and politicians. The young people will thus discuss the ideas they have developed on culture and how these can be incorporated, or be at the basis of a unified Europe.

The applicant is the Arbeiterwohlfahrt Kreisverband Bremerhaven. In this project proposal they build upon the experiences gathered during their participation in the Heimatgarten project, which helps Bosnian refugees when they return to their home country after having stayed abroad for a long period. This experienced showed that it was necessary to develop internationally oriented youth activities, which would help young people in need to overcome their problems.

The proposed project will bring together young people from AT (14), BH (14), DE (14), and HR (14) in Vela Luka (HR/Croatia). Thematically the project will focus on youth unemployment a problem with which the majority of the participants are confronted with. In workshops, working and discussion groups and specifically adopted role-plays the young people will be stimulated to share their problems in handling this problem. Approaching their problems from a completely new angle and experiencing it as a commonly shared experience is to encourage them to find new ways of improving their situation. An important part of the exchange will be the sport leisure time activities, which forms an integral part of the programme. It will function as counter balance to the self & group analysis in relation to the theme of unemployment and will also contribute to the process of group-building, which is of particular importance for the success of the project.

The Evangelisch Kirchengemeinde Köln-Worringen is protestant church organisation, which particularly tries to bring together young Germans and gypsies. They co-operate with different gypsy organisations at regional level as well as with the gypsy community of Köln-Nord. Having realised different activities in Germany they have decided to develop their work on an international level.

In their first project they plan to visit the gypsy ghettos of Kumanovo in Macedonia. With mixed groups of gypsies (Sinti & Roma) and non-gypsies from DE (16), FYROM (Macedonia) (10), GR (6) and YU (5) they will engage in a wide range of activities. These are meant to bring together the Sinti and Roma who do not have many contacts with each other and on the other hand the gypsies with the non-gypsy youngsters. Including in these activities will be special working and supporting projects, which will be beneficial to the local community. The aim is to create a clear local impact of the project but also to give the local population the opportunity to show their hosts where they live and work and how their community is organised. This is of particular importance this being the first exchange project as this insight into the gypsies' daily life is meant to reduce if not take away the prejudices which are often held against them and which prevent a closer contact or any form of dialogue.

Bavarian Opus-Institut offers intercultural training for staff of local youth services, labour offices and organises exchange programmes for young people. This multilateral exchange with partner groups from FI, UA and HR will be located on a Chinese junk sailing along the coast of Istria. The 35 participants will have 19 days on board, getting familiar with the life on such a boat, the organising of daily activities and duties as well as the current situation for the Croatian people living in the former war zone.

The applicant has chosen this boat, as its limited space and obligations for maintaining the ship present a specific environment, in which intercultural learning can be experienced in a rather intensive way. Participants will have basic tasks to actually manage together and therefore find creative ways to communicate and co-ordinate the group as a whole.

Therefore, the participants will have the opportunity to discuss not only the idealistic perspective of the Olympic games as presented by the media but also explore issues such as the political and economical exploitation of the games and the promotion of nationalism through them. The activities will include presentations by the participants, meetings with persons responsible for the organisation of the upcoming games and a simulation event of the Olympic games for the participants and local youth.

**Beneficiary:** RELAIS D'OUVERTURE ET D'ECHANGES CULTURELS ET LINGUISTIQUES

The Relais d'Ouverture et d'Échanges Culturels et Linguistiques is an association situated in Ladern sur Lauquet (France) whose main activities involve organising European and international intercultural exchanges. This project should involve 5 partners (HU, HR, BH, FR, DE) and 45 participants (9HU, 9HR, 9BH, 9FR, 9DE). 6 youth workers will supervise the group (1HU, 1HR, 1BH, 2FR, 1DE). The encounter will take place over 11 days in Ladern sur Lauquet in the south of France. This awareness raising aims to illustrate that no culture is better than another, but that there are merely different cultures. The exchange also aims to show that an intercultural encounter is also an encounter between generations, for the construction of Europe is part of history. In order to do so, the participants will meet with people and hear about their lives, discover history, heritage and local identity and also take part in sports and cultural activities.

Beneficiary: SERVICE CIVIL INTERNATIONAL - AUSTRIA

The applicant is the Austrian branch of the Service Civil International. This organisation was founded during the Interbellum with the clear aim to promote peace and co-operation in a war-torn Europe. The SCI has grown over the years to become a large world-wide network, which organises more than 500 youth camps a year and maintains a voluntary service scheme which provides for 5000 international placements a year. Recently a the special working group Youth and Unemployment Working Group (YUWG) was established, which aims at helping young people in need due to social, economical or other deprivation.

The proposed project is a result from a YUWG working group and proposes to bring together young people from AT (5), BH (5), HR (5), IT (5), and SI (5) in Schönau an der Triesting a small village near Vienna in Austria. The young people will engage in an intercultural exchange where in a first phase they will be challenged to form a group through specific games, role-play and discussions. The second phase will give the participants the chance to find out what Europe means to them, what they think Europe can do for them and what they define as their role in Europe. The project will not delve deeply into the political or social function of people but will instead concentrate on cultural/ethnic identity. Once the young people have thoroughly defined what identity is to them they will in the final phase produce a large mural artwork. In preparation of this common artistic output they will take part in different artistic workshops: photography, home page design and painting. The Mural will at the end of the project be presented to a local audience in the framework of an intercultural party.

Kairos Jeunesse, the youth co-ordination of Kairos Europe is an international, non-governmental organisation working towards a Europe for justice, a non-fortress Europe. They think the process of the unification of Europe is an open invitation to create multicultural societies that accept and respect differences, are free of racism and xenophobia. To promote this they organise different activities like development education, international youth exchanges, lobbying and so, especially focusing on migrants and minorities. The actual project is also fitting this line, it is to bring together communities of Southeast European origin living in BE and IE and communities and organisations of their region (BH and YU) to develop communication and co-operation among them. The organisers believe that the best way for this is through the involvement of youth in a common activity, so participants will work together to work on a comedy for a street festival in Brussels.

The applicant organisation "Grenzenlos - Interkultureller Austausch" (AT) is a member of an international youth exchange network (ICYE Federation). The organisation aims to promote tolerance and reconciliation between different cultures, and more recently it has focussed its activities on increasing the mobility and social inclusion of handicapped and socially disadvantaged youngsters. In view of the upcoming EU enlargement towards the East, "Grenzenlos" has set up a series of "Sunrise programmes", aimed at creating a positive socio-cultural atmosphere by youth exchanges and voluntary work projects. In this project - which is part of the Sunrise 2002 Programme - a young volunteer from Austria will do a 6 months service in a Macedonian non-governmental organisation called "Council for prevention of juvenile delinquency", located in the town "Kavadarci". Apart from setting up a range of activities aimed at preventing juvenile delinquency, the organisation also provides advice on how to set up a separate juvenile justice system in Macedonia (as this is non-existing) and it publishes reports on the current situation of the Macedonian youth in general. The volunteer will be working in the "Babylon Centre", which provides extra-curricular activities for youngsters "at risk", offering them a worthy alternative to hanging around in the streets and getting involved in juvenile crime.

Project "ICYE-Eastlinks South Eastern Europe multilateral EVS project" is presented by International Office of the I.C.Y.E Federation. The organisation comprises 35 National Committees and four regional bodies. It promotes short and long-term youth exchanges combined with voluntary service activities. ICYE enhances also youth mobility and intercultural learning through exchange programmes, study visits, training and issue seminars.

This long-term voluntary service project places 12 volunteers from FI, FR, IS, IT, SE, Bosnia and Herzegovina, Bulgaria, Croatia, Serbia in 9 different host organisations in those countries. The voluntary service period is for all 6 months. The project is an integral part of the ongoing ICYE-Eastlinks large-scale project aiming to increase the co-operation between ICYE and South Eastern European countries. This is a reciprocal application, which sends and receives volunteers on both sides EU/EEA and SEE. The aim is to promote long term voluntary service in the ex-Yugoslavian countries and to give the opportunity to volunteers coming from the latter countries to acquire experiences by living and working in a Western European country. The different hosting places range from environmental protection and disabled care institutions to projects working with refugees and homeless people as well as conflict resolution, new media, environmental issues and youth work. Volunteers will bring an intercultural dimension to the preventive and care work in host organisations.
