A. Technical requirements

The eReports system is an online tool that requires an Internet Browser to be able to complete and submit a report.

**Internet Browser**

Supported browsers are:

- Internet Explorer
- Firefox

The minimum version i.e. lowest version of Internet Browser that you must have installed on your computer is:

- Internet Explorer - version 9.0
- Firefox – version 25.0.1

**Access to Participant Portal and eReports**

eReports is available via the Participant Portal and two things are mandatory to have access to it.

- To have an EU Login account.
- To have a role assigned in the Participant Portal for the project

a. How to create an EU login account?

ECAS became EU login, for people who already had an ECAS account, this account still valid with EU Login.

If you do not yet have an EU login account, please visit the EU login registration website where you can create your account including an EU login username and password. The website is reached through the following link: https://webgate.ec.europa.eu/cas/eim/external/register.cgi

b. How to assign roles in the Participant Portal for a project

If both roles, Coordinator and Legal Representative, are under the responsibility of the same organisation (same PIC number), then by default the person who is given access to eReport for a specific project is the coordinator of the project (the person listed in the part A.2 of your application form:

- A.2 Person responsible for the management of the application (contact person) => will receive Primary Coordinator rights on the eReport

The LEAR has no access to the eReport

Only the Primary Coordinator Contact (Project Coordinator) can give access to the eReports to someone else. The procedure is the following:

- The Primary Coordinator (Project Coordinator) has to be logged in in the Participant Portal
- Go to Projects => My project(s)

![Image]

- In Actions choose the "Project Consortium"

![Image]

- Click on "Edit Roles" in the organisation you would like to view/add/revoke roles

![Image]

- A new window will be displayed and all persons with an assigned role to the project will be listed.
- To revoke a role, tick the person and press the "revoke" button at the bottom of the list
- To add a person click on the "Add Roles" button, this screen will appear
Fill the mandatory fields and press "OK". The roles are described in the page 8 of this user guide.

**Important Note:** The role is associated to the e-mail address, so make sure that it's the one associated with an EU Login account. After pressing "OK", an e-mail will be sent to that e-mail address to notify the person that she has been assigned a role in the project. If there is no EU Login account associated to this e-mail address, the person will be requested to create one.

B. Overview of the process

The reporting process for granted projects requires electronic submission of project report(s), via the internet. This process is identical for all types of reports, such as **Interim** and **Final Reports**.

The steps in the reporting process can be seen in the schematic diagrams below.
i. **STEP 1: ACCESS THE PARTICIPANT PORTAL**

In order to fill and submit an eReport, the first thing that you need to do is to access the **Funding & Tenders Portal**.

Link: [https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home](https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home)

The Research Participant Portal has been changed to the Funding & Tenders Portal. Until now the two Portals can be used but this is a transitory period. If you want to use the old one, click "CLOSE" if you want to use the new one click "Go to the Funding & Tenders Portal"

![The new Funding & Tenders Portal replaces the Participant Portal](image)

For each step of the eReport access process we have included printscreens of the two portals

**Reminder**
As explained before, the access to the eReport is granted to the e-mail address of the person registered as "Coordinator" in our EACEA IT systems. This e-mail address must be linked with an EU Login. If you do not have an EU Login account, you can find a link to the EU Login registration website in the Technical requirements' section of this user guide or click on "Register" in the home page of the Funding & Tenders Portal

Use your EU Login credentials to log in in the Portal

**Funding & Tenders Portal**
Innovation and Research Portal
ii. **STEP 2: ACCESS TO THE REPORT and ACCESS RIGHTS**

Open the section **My Project(s)** in order to have access to the list of projects you are part of.

**Funding & Tenders Portal**

For the project you want to access the reports, Click **Manage Projects**

**Innovation and Research Portal**

Click MP to access the report screen

**Select the Report**
A new window will open, listing all the Reports available for that project.

For each report, you will have two different (exclusive) actions available:

**View** – Gives you access to the report in read-only mode. This means that no changes are allowed and neither is submission. This happens when one of the following occurs:

- The report was already submitted;
- The role you have been assigned for the project only allows you to view the report;

**Edit** - enables to add new or edit content of the report and to submit it.

**Access Rights based on the Project Role**

Actions in eReports such as View, Edit or Submit are limited to only to those who have proper access rights. These rights are described in the table below and are based on the roles in the project.

<table>
<thead>
<tr>
<th>Project roles</th>
<th>Participant Portal role denomination</th>

**Check your Project Role in the Tender Portal**

To check your role in selected project, use **Personal Menu** in the top right part of the screen and select option **My Roles**.

Overview of users Project Roles
For more information on how to assign roles and rights in the Tender Portal, please find detailed information here:
https://webgate.ec.europa.eu/fpfis/wikis/display/ECResearchGMS/How+to+Assign+Roles
iii. **STEP 3: COMPLETE THE REPORT**

**Main Navigation**

The contents displayed in eReports are specific to each configured action/activity and therefore the main navigation pane on the image bellow serves only as example. Each report, depending on the action the project is part of, might have more or less tabs displayed.

By clicking on the tab you will be redirected to the specific section of the report.

Depending on the tab you click and the configuration of the report, you may have an additional level of tabs with additional information.

**Mandatory fields**

The report contains two types of fields:

- Mandatory fields - marked with symbol `*` must be filled, form can't be submitted without it
- Optional fields – can be filled, but are not necessary for form submission

**Save and Cancel**

Save and Cancel buttons available at the bottom of the screen provide options to save the changes or cancel the changes made. Selecting Cancel will restore previously saved version of the report.
If you select Cancel changes, you will be asked to validate this selection by pop-up screen.

<table>
<thead>
<tr>
<th>Cancel changes ?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Are you sure you want to cancel all changes ?</td>
</tr>
</tbody>
</table>

### Automatic Save function

eReports includes an automatic save feature, which saves the content of the report:

- when user changes a report tab
- a new row is added/removed in a table (when available)

**NOTE:** **Automatic save is not performed when the user closes the Browser**

![Data saved successfully]

**Important!**
Completed report needs to be submitted.

Saved ≠ Submitted.

### Attached Documents (when available)

Most of the reports include a section to allow annexes to be attached. These annexes are a formal part of the report and depending on the type of action, they may be mandatory or not.

The Attachments section is located in tab Attached Documents and the following screenshot provides an example of how it may look:
Attachment size limitation

There is a limit to the total (combined) size of your attachments. **10MB** is the limit. If you receive a message, warning you that the total size of documents exceeds the maximum allowed, please reduce the size of one or more attachments. For image-based documents, you can start by reducing their images resolution.

Report Preview

Before submitting your report, you have option to preview the whole report as single PDF document. To do so click on button ‘Report’, available at the bottom of the screen.

You’ll be asked if you want to save the report preview or open it directly. Please select **Open**.

You can also save the PDF in your local machine.

While it's not submitted, the report is shown with the "**Draft**" watermark.

iv. **STEP 4: REPORT SUBMISSION**

On the main navigation of the report is the *Submit* tab.

**Mandatory fields check**

*Submit* tab automatically perform various checks to ascertain whether your form is ready for submission. For example, the validation will verify that all mandatory fields have been completed and that all the mandatory attachments are present.

If there are any mandatory fields not filled, these will be listed. The following screenshot provides an *example* of how it may look.

![Mandatory fields check screenshot]

**Submission of the Report**

When all mandatory fields are filled, submit the report is ready for submission and button Submit report is enabled. The following screenshot provides an *example* of how it may look.

Language of the report selection indicates which language was used to fill the fields of the report.

To submit the report select the language and press the Submit report button.

![Submission of the Report screenshot]
When the submission is complete you will see:

**Report submitted**

**IMPORTANT !!!**
*Once you have submitted the form, it is not possible to edit the report anymore.*

Acknowledgment of receipt

After success of submission of the report, Coordinator of the project will receive an acknowledgment of receipt on his/her email address.
