APPLICANTS’ GUIDELINES

1. INTRODUCTION

After the worst economic and financial crisis in its history, the Europe 2020 strategy for smart, sustainable and inclusive growth, is helping the EU to regain higher levels of employment, productivity and social cohesion. Concrete actions at EU and national level underpin the strategy. In this context, the Commission Communication “Building Growth”\(^1\), of June 2014 stresses the need for the EU to invest more in education and competences and to improve the coverage and performance of education systems in order to deliver on these objectives.

In its conclusions of 12 May 2009 on a Strategic Framework for European cooperation in education and training (ET2020), the Council set up strategic objectives with a view to responding to the challenges that remain in creating a knowledge-based Europe and making lifelong learning a reality for all.

In its resolution of 27 November 2009 on a renewed framework for European cooperation in the youth field (2010-2018), the Council emphasised the need to consider all young people as a resource in society and sought to facilitate their participation in the development of policies affecting them by means of a continuous structured dialogue between decision-makers and young people and youth organisations at all levels.

The Council conclusions of February 2014 on Efficient and Innovative Education and Training to Invest in Skills - supporting the 2014 European Semester\(^2\) stressed that education and training have a strategic role to play in supporting the economic recovery in Europe. In addition to fostering social cohesion and active citizenship, education and training contribute significantly to generating smart, inclusive and sustainable growth, to improving competitiveness and employability and to enhancing productivity and innovation. Whilst acknowledging the efforts already made to meet these key challenges, the Council called on the EU and the Member States to continue to improve education and training and to invest in efficient, high quality education and training in order to tackle in particular youth unemployment and inadequate competence levels.

\(^1\) [Link to Commission Communication](http://ec.europa.eu/europe2020/pdf/csr2014/eccom2014_en.pdf)
The Union programme for education, training, youth and sport Erasmus+3 ("the Programme") - whilst respecting the structures and specific needs of the various sectors at national level – covers the following fields: education and training at all levels, in a lifelong learning perspective, including school education, higher education, international higher education, vocational education and training, adult learning and youth, particularly in the context of non-formal and informal learning. It brings formal, non-formal and informal learning together in a single Programme to create synergies and foster cross-sector cooperation across the various education, training and youth sectors.

Cooperation with civil society organisations in the fields of education, training and youth is essential to create a broad sense of ownership in relation to lifelong learning strategies and policies, and to take into consideration stakeholders' ideas and concerns at all levels. It is important for raising awareness about the Europe 2020 strategy for growth and jobs, the Strategic Framework for European cooperation in Education and Training (ET2020), specific policy agendas such as the Bologna process in Higher Education or the Bruges-Copenhagen process in Vocational education and training (VET), as well as the EU Youth Strategy. It is vital for securing the active involvement of stakeholders in the implementation of policy reforms in the different countries, for promoting their participation in the Erasmus+ programme and other European Programmes and for disseminating policy and Programme results and good practice through their extensive membership networks.

The Education, Audiovisual and Culture Executive Agency ("the Agency") acting under the powers delegated from the Commission is responsible for implementing the present Call for proposals ("the Call").

1.1 A JOINT CALL WITH TWO SEPARATE LOTS

The present Call will provide funding through the two following Lots:
- Civil society cooperation in the field of education and training (Lot 1)
- Civil society cooperation in the field of youth (Lot 2)

Please note that an organisation can submit only one application under the Call either for Lot 1 or Lot 2, but not for both.

1.2 FUNDING ARRANGEMENTS

The present Call offers the opportunity to apply for

- Framework Partnership Agreements (Lots 1 and 2) and for
- Annual Operating Grants (Lot 2 - Youth only). In this case, an organisation may submit only one application, either for a Framework Partnership Agreement or for an Annual Operating Grant.

---

1.2.1. Framework Partnership Agreement

**Framework Partnership Agreements** cover long-term cooperation at European level. This kind of agreement formalises a partnership for **three years**.

Applications for a Framework Partnership Agreement must include:

- a detailed 12-month work programme (annual work programme) for 2015 together with the information needed to calculate the grant;

The three-year action plan should set out a strategy including objectives, expected results and deliverables for the period 2015-2017, both globally and for each of the three years, as well as the actions to be implemented to guarantee their achievement.

The annual work programme must be based on the action plan set out for the period 2015-2017 and will be the basis for awarding a **specific annual operating grant** for each of the three budgetary years concerned. The consistency and complementarity between the multiannual and the annual elements of the programme should be clearly demonstrated.

1.2.2. Annual Operating Grant (Lot 2 – Youth only)

**Annual Operating Grants** focus on short term cooperation at European level.

Applications for **Annual Operating Grants** must contain a detailed 12-month work programme (annual work programme) for 2015 together with the information needed to calculate the grant.

An organisation may submit only one application, either for a Framework Partnership Agreement or for an Annual Operating Grant.

2. OBJECTIVES OF THE CALL

2.1. GENERAL OBJECTIVES

The objective of the present Call is to provide structural support, referred to as operating grant, to European non-governmental organisations (ENGOS) and EU-wide networks active in the field of education and training or in the field of youth and pursuing the following general aims:

- Raise stakeholder awareness of European policy agendas in education training and youth, in particular Europe 2020, Education and Training 2020, specific policy agendas such as the Bologna or the Bruges-Copenhagen processes, as well as the EU Youth Strategy;

- Increase stakeholder commitment and cooperation with public authorities for the implementation of policies and reforms in the fields of education and training and of
youth, such as the country-specific recommendations issued in the framework of the European Semester;

✓ Boost stakeholder participation in the fields of education, training and youth;
✓ Boost stakeholder involvement in the dissemination of policy and Programme actions and results and of good practice among their membership and beyond.

These general objectives draw on the assets of ENGOs and EU-wide networks and on their capacity to reach out to large numbers of interested parties and to advocate EU policy priorities. They should therefore be clearly embedded in the work plans, activities and deliverables of the applicant organisations.

2.2 SPECIFIC OBJECTIVES OF THE CALL

2.2.1 IN THE FIELD OF EDUCATION AND TRAINING

The organisations active in the field of education and training are expected to develop and implement innovative, targeted and creative strategies and activities to support the effective implementation of reforms and actions in the following areas:

✓ Promoting excellence and innovation, through formal, non-formal and informal learning approaches and learner-centred provision of basic and transversal competences, including languages, digital and entrepreneurship competences; raising awareness of innovative educational approaches such as Open Educational Resources (OER) and Massive Open Online Courses (MOOCs); creating open learning environments and cross-sector stakeholder partnerships;

✓ Tackling the low-skills trap by facilitating efficient and sustainable investment in education and training; promoting analyses and debates at European, national and regional level to explore or develop innovative funding approaches; increasing attainment levels and minimising drop-out rates; improving the attractiveness of learning environments, facilitating transitions and flexible or alternative learning pathways; developing quality Vocational Education and Training (VET) involving work-based learning, traineeships or apprenticeships, aligning policies to economic development strategies; new qualification paths in potential growth areas or areas with competence shortages; enhancing equal opportunities for access to quality education and training, including for learners with disadvantaged backgrounds; promoting innovative guidance and counselling approaches;

✓ Supporting a new generation of educators by enhancing the professional profile of teachers, trainers, teacher educators and school leaders, by improving selection, recruitment and retention, effective initial education, early career support, career-long professional learning and development, pedagogical feedback and incentives; stimulating peer learning and learning communities; enhancing data collection and analyses on education and training;

✓ Recognising and valuing competences through European tools for transparency and the recognition of prior learning – including non-formal and informal learning outcomes -
and of experience; equipping people in all age groups with better and more relevant competences through lifelong learning, including updating and improving the competences of low-skilled adults; course design, delivery and evaluation taking account of competence and growth projections and employment data; development of interdisciplinary learning paths.

The work plan should clearly demonstrate the organisation’s potential and capacity to generate concrete impacts in at least two of these areas.

2.2.2 IN THE FIELD OF YOUTH

The organisations active in the field of youth that will be supported under the Call are expected to carry out activities that aim to:

- Promote the employability of young people, notably through activities that foster the development of competences and skills through non-formal education;
- Foster the empowerment of young people in society, and foster their participation in the decision-making processes;
- Contribute to the personal, socio-educational and professional development of young people in Europe;
- Contribute to the development of youth work at European, national, regional or local levels;
- Contribute to the debate on development of policy issues affecting young people and youth organisations at European, national, regional or local levels;

Civil Society Cooperation – Applicants’ Guidelines
➢ Grant Decision:

the decision must not be returned to the Agency. The general conditions applicable to the decision are available in the 'Documents register' of the Agency website: http://eacea.ec.europa.eu/about/eacea_documents_register_en.php#call

As regards grant decisions, beneficiaries understand that:
Submission of a grant application implies acceptance of these General Conditions. These General Conditions bind the beneficiary to whom the grant is awarded and shall constitute an annex to the Grant Decision.

➢ Framework Partnership Agreement:

It is a bilateral act (see "Grant Agreement" above) which formalises a long-term cooperation mechanism between the Agency and its partners, i.e. the beneficiaries of a Framework Partnership Agreement.

Please note that the award of a grant in one year does not establish an entitlement for subsequent years.

11. FINANCIAL PROVISIONS

11.1. GENERAL PRINCIPLES

a) Non-cumulative award

Applicants may receive only one operating grant per financial year from the budget of the European Union.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the application form the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action.

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed.

Costs eligible for financing may neither have been incurred before the grant application was lodged nor before the start of the beneficiary's budgetary year.

c) Co-financing

Co-financing means that the resources which are necessary to carry out the action or the work programme may not be entirely provided by the EU grant.
Co-financing of the action or of the work programme may take the form of:

- the beneficiary’s own resources,
- income generated by the work programme,
- financial contributions from third parties.

d) **Budget**

The estimated budget of the work programme is calculated automatically in the eForm in euros.

e) **Subcontracting**

Where the implementation of the action or the work programme requires the award of procurement contracts, the beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the documentation for the event of an audit.

f) **Financial support to third parties**

The applications may not envisage provision of financial support to third parties.

11.2 **Funding forms**

In accordance with Commission Decision of 3.9.2014 authorising the use of reimbursement on the basis of unit costs for the Civil Society Cooperation actions under the Erasmus+ Programme [C(2014)6145 final], operating grants for Civil Society Cooperation in the fields of Education and Training and of Youth take exclusively the form of reimbursement on the basis of the following unit costs:

- Personnel (unit cost per personnel)
- Statutory Meetings (unit cost per meeting) related to the organisation of statutory meetings.

➤ **Maximum amount requested**

The number of units for personnel shall only refer to persons hired by the beneficiary organisation on the basis of (i) a labour contract, (ii) a contract assimilated to a labour contract or (iii) to temporary staff recruited through a specialised agency (interim staff).

---

6 This is in case the following conditions are fulfilled: (a) the natural person works under the instructions of the beneficiary and, unless otherwise agreed with the beneficiary, in the premises of the beneficiary, (b) the result of the work belongs to the beneficiary and (c) the costs are not significantly different from the costs of staff performing similar tasks under an employment contract with the beneficiary.
Personnel with a contractual relationship other than these (such as volunteers and trainees) shall not be included in the calculation of the number of personnel units.

The beneficiary organisations shall calculate the number of personnel units using the total number of personnel full time equivalent (FTE) hired in the year for which the grant is requested. If the number of FTEs is not specified in the annual accounts, then it should be calculated by dividing the total number of working days actually worked in the previous year ((1) counting 1 day for persons working full time or (2) pro rata to the time actually worked for persons working part time) by 220 days per year.

The number of units for meetings shall only refer to statutory meetings included in the articles of the statutes of the beneficiary organisations such as general assembly, management board, steering committee, regional meeting, etc. For EU-wide networks for which the statutory links are not necessary (only for Lot 2 – Youth), the number of units for meetings shall only refer to the meetings organised in the frame of the governance of the informal network. Other meetings organised by the beneficiary organisations (conferences, seminars, roundtables, workshops, etc.) shall not be included in the calculation of the grant.

In order to calculate the maximum amount of the grant, a method following two steps is used:

- Step one: calculating the grant in the form of reimbursement of unit costs by:
  - For personnel costs: multiplying the unit value per FTE by the estimated number of FTEs to be used in the year for which the grant is awarded
  - For statutory meetings: multiplying the unit value per meeting by the estimated number of statutory meetings
  - Adding together the results of the two multiplications above

- Step two: limiting the grant to a maximum amount of and 125.000/200.000 EUR for Education and Training (Lot 1) and to 50.000/35.000 EUR for Youth (Lot 2).

It is not necessary to apply a co-financing percentage because the unit costs have been calculated taking already into account the beneficiary's co-financing.

For Lot 1 - Education and Training, the unit cost for personnel both for ENGOs and EU-wide networks is EUR 12.925 and for statutory meetings of ENGOs and EU-wide networks is EUR 18.216.

**Example of calculation:**

**ENGO active in the field of Education and Training declaring 3 FTEs and 5 Statutory meetings**

</tbody>
</table>
For Lot 2 - Youth, the unit cost for personnel both for ENGOs and EU-wide networks is EUR 9,356 and for statutory meetings for ENGOs or governance meetings for EU-wide networks is EUR 3,381.

Example of calculation:

</tbody>
</table>

An ENGO in the field of Youth can also declare only Statutory meetings in case has no FTEs but only volunteers.

The grant amount may not exceed the amount requested. Amounts are indicated in euros. Acceptance of an application by the Executive Agency does not constitute an undertaking to award a grant equal to the amount requested by the beneficiary.

➢ Calculation of the final grant amount

The final amount of the grant to be awarded to the beneficiary is established after completion of the work programme, upon:
- approval of a payment request accompanied by a final report providing details of the implementation and results of the work programme;
- verification of the implementation of the activities and/or of the production of the deliverables planned in the application.

In the event of non-execution or clearly inadequate execution of an activity planned in the application attached to the funding decision/agreement, the final grant will be reduced accordingly.

11.3. Payment arrangements

A pre-financing payment corresponding to 80% of the grant amount will be transferred to the beneficiary within 30 days either of the date when the last of the two parties signs the agreement, or of the notification of the grant decision, provided all requested guarantees have been received.

The Agency will establish the amount of the final payment to be made to the beneficiary on the basis of the calculation of the final grant amount (see section 11.2 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Agency through a recovery order.
11.4. Pre-financing guarantee

(Only for Lot 1)

In the event that the applicant's financial capacity is not satisfactory, a pre-financing guarantee for up to the same amount as the pre-financing may be requested in order to limit the financial risks linked to the pre-financing payment.

The pre-financing guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the Member State of the European Union. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he/she considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by a joint and several guarantee by a third party or by a joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or payments of balances to the beneficiary, in accordance with the conditions laid down in the grant agreement.

This requirement does not apply to:

- public bodies and international organisations under public law established by intergovernmental agreements, specialised agencies created by such organisations, the International Committee of the Red Cross (ICRC) or the International Federation of Red Cross and Red Crescent Societies.
- beneficiaries who have entered into a framework partnership agreement may also be released from this obligation.

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union’s contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Commission on all their publications, posters, programmes and other products realised under the co-financed activities.

To do this they must use the text, the emblem and the disclaimer available at http://eacea.ec.europa.eu/about/eacea_logos_en.php, which will be provided by the Agency.
If this requirement is not fully complied with, the beneficiary’s grant may be reduced in accordance with the provisions of the grant agreement or grant decision.

12.2. By the Agency and/or the Commission

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on the Internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The Agency and/or the Commission will publish the following information:

- name of the beneficiary,
- locality of the beneficiary,
- amount awarded,
- nature and purpose of the grant.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

13. DATA PROTECTION

All personal data (such as names, addresses, CVs, etc.) will be processed in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the European Community institutions and bodies and on the free movement of such data.7

Unless marked as optional, the applicant’s replies to the questions in the application form are necessary to evaluate and further process the grant application in accordance with the specifications of the call for proposals. Personal data will be processed solely for that purpose by the department or Unit responsible for the Union grant programme concerned (entity acting as data controller). Personal data may be transferred on a need to know basis to third parties involved in the evaluation of applications or in the grant management procedure, without prejudice of transfer to the bodies in charge of monitoring and inspection tasks in accordance with European Union law. In particular, for the purposes of safeguarding the financial interests of the Union, personal data may be transferred to internal audit services, to the European Court of Auditors, to the Financial Irregularities

Panel or to the European Anti-Fraud Office and between authorising officers of the Commission and the executive agencies. The applicant has the right of access to, and to rectify, the data concerning him or her. For any question relating to these data, please contact the Controller. Applicants have the right of recourse to the European Data Protection Supervisor at any time.

A detailed Privacy statement, including contact information, is available on EACEA’s website: http://eacea.ec.europa.eu/about/documents/calls_gen_conditions/eacea_grants_privacy_statement.pdf

Applicants and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in:

their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the EWS only or both in the EWS and CED, and communicated to the persons and entities listed in the above-mentioned Decision and Regulation, in relation to the award or the execution of a procurement contract or a grant agreement or decision.

The eForm is an interactive PDF form that requires Adobe Reader software and applicants should ensure that they can install Adobe version 9 or higher on the computer they will be using to complete the application eForm. The eForm is downloaded onto a local computer and completed remotely. Once the text is ready and the attachments are linked to the application, it has to be submitted using an internet connection.

The eForm is settled to ensure that applicants have the greatest chance to submit an eligible application. Therefore you will find that submission will be impossible unless all mandatory fields are completed.

The Applicant will be able to fill in this eForm by either:

- clicking inside a text field to enter data;
- clicking to select options from e.g. dropdown lists, checkboxes, pop-up calendars and radio buttons;
- pressing Tab to move forward one field or Shift+Tab to move backward one field;
- pointing and clicking with the mouse to select a specific field.
